- There is no road map in sight on the rate rationalisation exercise or the inclusion of excluded items such as electricity, petroleum and real estate, without which the efficiency gains from the GST remain constricted.
- The GST Council needs to meet more often and turn its to-do list into a must-do list expeditiously.
- Extension of GST Compensation cess levies till at least March 2026, instead of the initial 5-year tenure.

What is the way forward?

- The risk parameters for the new applicants are continuously refined through use of data analytics and AI to control the rogue players.
- Taxation of online gaming activities and transactions involving cryptocurrency are few new areas that deserve attention under GST.
- Setting up of Centralised Authority to address the issues arising from contradictory

orders passed by the Authority for Advance Rulings (AARs) in different states.

- A National Appellate Authority for Advance Ruling with the inclusion of judicial members in bench may improve this tax reform.
- A white paper for each industry with clarifications on major issues should help further improve the certainty index.
- Operationalization of the GST Appellate Tribunal to help taxpayers in getting quicker cost-effective resolution.
