What is the recent development?

 $n\n$

\n

- The rebels within the ruling party allied with major opposition parties to push through an <u>amendment to the Brexit legislation</u>.
- The amendment prescribes a <u>greater say for the Members of Parliament</u> on the terms of Britain's departure from the EU.
- The amendment was passed despite a last-minute attempt by the government to offer a "concession".

What are the implications?

 $n\n$

۱n

• **Brexit** - Britain recently made landmark agreement after tough negotiations with the EU on the terms of Britain's exit.

\n

 \bullet The terms of agreement include those on -\n

\n \n

\n

i. the status of British and EU migrant residents in their respective territories

\n

ii. the financial settlement of London's outstanding dues

\n

iii. reconfiguration of the EU-UK border between Northern Ireland and the Republic of Ireland

- \bullet The recent vote in the parliament casts a shadow over this consensus development in the Brexit process. $\mbox{\ensuremath{\backslash}} n$
- **Government** The tussle between parliamentary sovereignty and executive authority has existed since the Brexit referendum.
- The country's Supreme Court ruling held that since domestic laws would be altered following Brexit, a parliamentary vote on initiating that process was mandatory.
- In this backdrop, the defeat in parliament comes as a humiliating <u>loss of authority for the government</u>.
- \bullet The development was met with anger from hardline Brexit supporters. $\mbox{\ensuremath{^{\text{h}}}}$
- However, it is an important guarantee of parliamentary scrutiny over the future course of London's relationship with the EU.
- The amendment will ensure that legislators have a voice in finalising the terms of the exit agreement.
- This gains greater significance with the impact on residency status of millions and London's financial liabilities in a post-Brexit scenario.

How does the future look?

 $n\n$

۱n

- Ms. May will have to make some difficult compromises in the months ahead.
- \bullet And be more accountable to her party and to the Parliament. $\ensuremath{\backslash n}$
- Another test lies ahead in Parliament, pertaining to the differences over the March 2019 deadline for Brexit.

\n

 Also, with referendums becoming a popular tool worldwide, the world countries should consider the larger debate on whether such votes should override the will of the legislature, or guide it.
