

Addressing Malnutrition

Why in news?

\n\n

\n

- Global estimates prove that India is seriously facing the problem of malnutrition.

\n

- Various initiatives have been taken up by government to address the malnutrition.

\n

\n\n

What is the nutrition accessibility status of Indians?

\n\n

\n

- In 2017, India ranked 100 out of 119 countries on the Global Hunger Index, click [here](#) to know more.

\n

- Malnutrition is often a symptom of underlying problems such as poor maternal health which may lead to low weight at birth, stunting and susceptibility to diseases in childhood.

\n

- Among adults, malnutrition directly impacts adult productivity and hampers the cognitive development of children.

\n

- Based on the fourth National Family Health Survey (NFHS) (2015- 16), 38% children below 5 years are stunted and 58.4% are anaemic.

\n

- 54% women between 15 and 49 years to be anaemic while 22.9% have a low maternal body mass index.

\n

\n\n

What are the measures taken by the government?

\n\n

\n

- **Rice fortification** -Rice is fortified with iron has been introduced in the mid-day meal scheme in Odisha, to reduce anaemia among primary school students.

\n

- **Integrated Child Development Services (ICDS)** -Programme which provides food, pre-school education, and primary health care to mothers and children.

\n

- **Public Distribution System (PDS)**- It's to make available diverse, nutritious and micro-nutrient fortified foods to the populations.

\n

- **Mission Shakti** - In Odisha under this scheme women are empowered with the help of SHGs.

\n

- **Pustikar Divas** -Establishing nutrition rehabilitation centres, identifying children suffering from severely-acute malnutrition, and fixing a day for monitoring such children are the objectives of this mission.

\n

- **Saansad Adarsh Gram Yojana**- It aims to equip people with quality access to basic amenities and opportunities to help them shape their own destiny under MP's fund.

\n

- **Other options**- In some areas government is also working on cash transfers supplemented with counselling to ensure behavioural change among people and to generate demand for diverse dietary choices.
