What is Special Category Status (SCS)?

- It is a classification granted by the Centre to assist the development of States that face geographical or socio-economic disadvantages.
- **Launch year**- It was introduced in 1969 on the recommendation of the 5th Finance Commission (FC).

- **Increased devolution**- Assistance to SCS states has been subsumed in an increased devolution of the divisible pool funds for all States (increased to 41% in the 15th FC from 32%).

Other States demanding SCS

- **Andhra Pradesh**- Since its bifurcation in 2014, it has asked for a grant of SCS on the grounds of revenue loss due to Hyderabad going to Telangana.
- **Odisha**- Due to its vulnerability to natural calamities such as cyclones and a large tribal population (nearly 22%).
- **Centre's response**- It denied citing the 14th FC report, which made a recommendation to the Centre that no State be accorded the SCS.

Why Bihar is demanding SCS?

- **Poverty**- As per Bihar caste survey, nearly one-third of Bihar's population continues to live in poverty.
- **Backwardness**- Bihar is one of the most backward States in India with a per-capita GDP of around 54,000 rupees, which is less than half of the national average.
- **Low resource**- The State faces challenges such as lack of natural resources, inadequate water supply for irrigation, frequent floods and droughts, and low human development indicators.
- **Industrial decline**- Bifurcation of Bihar in 2000 resulted in the loss of mineral-rich areas and major industries to Jharkhand, leaving Bihar with a weak industrial base and

low revenue.

- **Poor investment**- It has been struggling to attract private investment and create employment opportunities for its large population.
- **Need financial assistance**- Bihar has been demanding the SCS since 2010, to get more financial assistance and tax incentives from the Centre.

Is Bihar demand justified?

- **SCS criteria**- It ***does not have hilly and difficult terrain***, which is a major factor for granting SCS.
- **Raghuram Rajan Committee**- It was set up in 2013 to suggest a new formula for allocating funds to the States.
- The committee ranked the States based on a *multi-dimensional index*, which included per capita consumption, poverty ratio, education, health, household amenities, urbanization, financial inclusion, and connectivity.
- Bihar was ranked the lowest among all the States, indicating its least developed status.
- The committee recommended that the Centre should provide a *fixed amount of funds to each State* based on their development needs, and not on the basis of SCS or non-SCS.
- The committee also suggested that the States should be given more flexibility and autonomy in spending the funds according to their priorities.
- The committee's report was not accepted by the Centre, and the SCS issue remained unresolved.
