

# **BRICS Summit - Johannesburg Declaration**

\n\n

### Why in news?

\n\n

The 10th summit of the BRICS grouping was held recently in Johannesburg, South Africa.

\n\n

#### What are the key outcomes?

\n\n

∖n

- BRICS has produced a 102-paragraph-long Johannesburg Declaration, one of the longest in recent years.
- **Trade** BRICS framed its deliberations against U.S. President's unconventional approach on world affairs.
  - \n
- It made a special mention of the looming trade wars among major powers.
  - $\bullet$  BRICS leaders thus stressed the centrality of the rules-based order.  $\n$
  - It calls for a transparent, non-discriminatory, open and inclusive multilateral trading based on WTO.  $\n$
  - Besides, the declaration discussed on the problem of international terrorism.  $\ensuremath{\sc vn}$
  - Industrial Revolution BRICS leaders will soon commence the full operationalization of the BRICS Partnership on New Industrial Revolution (PartNIR).

∖n

- PartNIR will deepen BRICS cooperation in digitalization, industrialization, innovation, inclusiveness and investment.
- It aims to maximize the opportunities and address the challenges arising

from the 4th Industrial Revolution.

∖n

 PartNIR should engage with the private sector and young innovators working at the cutting edge of technology.

\n\n

∖n

 Development - The leaders renewed their commitment to an inclusive and "people-centred approach" on development.
\n

.

\n\n

∖n

• The need for a new strategy on employment, education and skill development was also articulated.

∖n

- This especially gains significance as the digital revolution unfolds.  $\space{\label{eq:linear} \label{eq:linear} \label{eq:linear} \label{eq:linear}$  .

\n\n

\n

• **Business** - BRICS Business Council has been actively enhancing trade and economic cooperation.

\n

- It covers diverse sectors ranging from manufacturing and energy to financial services and regional aviation.
  - ∖n
- Africa The BRICS outreach to Africa that began at the summit in 2013 has picked up momentum now.  $\n$
- African leaders are in want of more big loans from the New Development Bank (NDB) for their infrastructure projects.
- So far, the NDB has dispersed loans totalling \$5.1 billion, but all to its members only.

∖n

• **BRICS Plus** - China introduced the "BRICS Plus" format at the Xiamen summit last year.

\n

- It involved inviting a few countries from different regions.
- South Africa emulated it, with representation of five nations of its choice.  $\slash n$
- The countries were Argentina, Jamaica, Turkey, Indonesia and Egypt.

\n

- An immediate benefit of BRICS Plus is the opportunities it provides for networking among leaders.  $\gamman{\c} \gamman{\c} \gamman{\c}$
- However, the precise role of "BRICS Plus" countries will take time to evolve.
- India Among the bilateral meetings that took place was also the interaction between Indian PM and Chinese President.
- The interaction deepened the trend towards conciliation between Asia's two biggest powers.

\n

\n\n

## What is the significance?

\n\n

\n

- BRICS represents over 40% of the world's population and accounts for 22% of global GDP.

∖n

- It will thus continue to be an influential voice as long as its convergences prevail over its divergences.
- Changing power equations within BRICS are being witnessed as a new development.

∖n

• Evidently, China's dominance is a reality even as BRICS asserts on sovereign equality of all members.

\n

- On the other hand, China-Russia proximity has been a continuing factor.  $\slash n$
