

## Canadian PM attends Khalsa Day

### What is the issue?

\n\n

Canadian Prime Minister Justin Trudeau's presence at a Khalsa Day event raises troubling questions.

\n\n

### What happens on Khalsa day?

\n\n

\n

- In the parade organised by the Ontario Sikhs and Gurdwara Council on "Khalsa Day", the images of pro-Khalistani militants are often brought out.
- Many of the marchers also call for the establishment of a separate Khalistan.
- India ensured that Mr Trudeau's predecessor didn't attend the same event.
- Now Mr Trudeau chose to make his appearance in a year he plans to visit India.

\n

\n\n

### Why it is important?

\n\n

\n

- India is not against free speech or freedom of association.
- Neither has it denied the brutal, shameful anti-Sikh violence of 1984.
- In India too, organisations are allowed to protest the events of 1984, as well as other wrongs perpetrated in India.
- But the occasion had several other issues with it.
- It included several posters and floats that **glorified militants who included**

\n

**who died in Operation Blue Star**, those who carried out the bombing of Air India's 'Kanishka' flight in 1985 as well as a related bombing incident in which two Japanese baggage handlers were killed in Tokyo.

\n

- The celebrations also honoured two legislators who had authored resolutions in the Ontario Assembly which **declared events of 1984 as "Genocide"**.

\n

- **India had objected to the resolution** both in official statements and in the meetings with visiting Canadian Defence Minister.

\n

- The Genocide resolution in the Assembly, which was hailed at the parade wasn't restricted to the anti-Sikh riots, but to "events of 1984".

\n

- It criticises the Indian Army's actions in Operation Blue Star as much as the riots.

\n

- It also displayed flags and signs for "**Referendum 2020**", a plan by local groups for a worldwide vote for all Sikhs, including those in Punjab, to vote for a separate homeland.

\n

\n\n

## **What is India's reaction?**

\n\n

\n

- For the past four decades, terrorism has been an important factor in India's foreign policy.

\n

- At the UN in 1996, India first introduced the concept, proposing a Comprehensive Convention on International Terrorism.

\n

- India's position has become more strident, with a push for the UN designation of terrorist groups as well as raising the issue of Pakistan-based terrorists at international fora including the G-20, BRICS and the South Asian Association for Regional Cooperation.

\n

- But now it took more than a week for the MEA to respond mildly, in an answer to a question.

\n

- India cannot afford to handle the issue lightly.
