

# **Dhangars' Demand for ST Status**

### Why in news?

\n\n

Following the Maratha agitation for reservation in Maharashtra, the Dhangar community's demand for ST status has also gained momentum.

\n\n

#### Who are the Dhangars?

\n\n

\n

- Dhangars are a shepherd community who live mostly in Western Maharashtra and Marathwada.
  - \n
- They make up about a crore of Maharashtra's roughly 11.25 crore population (9%).

∖n

• They do play a key role in election outcomes of the state's Lok Sabha and Assembly seats.

\n

- The four LS seats regions are Baramati, Madha, Solapur, and Satara.  $\slash n$ 

\n\n

#### What is their demand?

\n\n

∖n

• Dhangars are currently on the list of Vimukta Jati and Nomadic Tribes (VJNT) in Maharashtra.

\n

- However, they have been demanding Scheduled Tribe (ST) status for the past several decades.
  \n
- They claim that Dhangars in Maharashtra are the same as those who are called "Dhangad" elsewhere in the country.

\n

- Notably "Dhangad" are listed as a Scheduled Tribe.  $\space{\space{1.5}n}$
- It is said that a typographical error had led to the community's name being recorded as "Dhangar".
  - \n
- **Reservation** Maharashtra has 52% reservation in all.
- In this, SCs and STs have 13% and 7% respectively, and OBCs have 19%.  $\ngreen n$
- The Vimukta Jati/Denotified Tribes, Special Backward Class, and Nomadic Tribes together have 13%.

∖n

• Dhangars are, notably, a 'Nomadic Tribe'.  $\nphin$ 

\n\n

## What is the government's stand?

\n\n

\n

• The state had in 2015 got the assistance of Tata Institute of Social Sciences (TISS) in this regard.

\n

• TISS was asked to establish whether Dhangars meet the criteria to be identified as ST.

\n

- $\bullet$  In effect, this meant establishing whether Dhangars were the same as Dhangads.  $\gamma_n$
- $\bullet$  This is to prevent any future legal challenge to Dhangars being moved from VJNT to ST.

∖n

- The TISS study is in an advanced stage and the government too has reiterated it's commitment to the Dhangars.  $\n$ 

\n\n

## What is the challenge?

\n\n

∖n

• Almost all parties had, in the last two decades, supported the inclusion of Dhangars in the ST category.

\n

- However, they face the opposition of the Scheduled Tribes (STs).  $\slash n$
- STs are unwilling to allow the dilution of their quota by the inclusion of a large community like the Dhangars.  $\n$
- ST MPs and MLAs have said that Dhangars could be included only if the overall ST quota is increased.  $\n$
