### What is the procedure for including a site in the WHS list?

- **Selection criteria** - To be included on the World Heritage List, sites must be of outstanding universal value and meet at least one out of 10 selection criteria of UNESCO.
- Only countries that have signed the World Heritage Convention can submit nomination proposals for properties on their territory to be considered for inclusion in UNESCO's World Heritage List.
- **Tentative List** - The first step a country must take is to make an 'inventory' of its important natural and cultural heritage sites located within its boundaries, known as the Tentative List.
- The World Heritage Committee cannot consider a nomination for inscription on the

World Heritage List unless the property has already been included on the State Party's Tentative List.

- **Evaluation**- A nominated property is independently evaluated by
  - The International Council on Monuments and Sites (ICOMOS)
  - The International Union for Conservation of Nature (IUCN)
  - The International Centre for the Study of the Preservation and Restoration of Cultural Property (ICCROM)
- **Deciding authority** - Once a site has been nominated and evaluated, it is up to the intergovernmental World Heritage Committee to make the final decision on its inscription.
