

Inter-Creditor Agreement - Banks Resolution

Why in news?

 $n\n$

More than a dozen of lenders led by State Bank of India recently signed the intercreditor agreement (ICA).

 $n\n$

What is the agreement on?

 $n\n$

\n

- The agreement is part of the proposed <u>Project Sashakt</u>.
- "Sashakt" plan is approved by the government to address the problem of resolving bad loans.

\n

• The objective is to use this ICA for faster facilitation of resolution of stressed assets.

\n

 It is aimed at the resolution of loan accounts with a size of Rs. 50 crore and above that are under the control of a group of lenders.

 $n\n$

How did it evolve?

 $n\n$

\n

- Over the last few years, stressed assets resolution has been a challenge, despite RBI's consistent direction to banks.
- A panel led by banker Sunil Mehta identified the disagreement among joint lenders as the biggest problem in resolution.
- It recommended the bank-led resolution approach in the form of intercreditor agreement.

\n

 \bullet This is an improvement on the earlier model of solely relying on the joint lenders' forum to arrive at a consensus. \n

 $n\n$

What are the provisions?

 $n\n$

\n

• If 66% of the lenders agree to a resolution plan it would be binding on all lenders.

\n

 $n\n$

\n

 \bullet A 'dissenting creditor' is that which votes against or abstains from voting for the resolution plan approved by the committee. \n

• A dissenting creditor could sell its loan at a discount of 15% of the liquidation value to other lenders.

۱n

 Liquidation value is the amount at which a company could sell its assets and settle liabilities.

۱n

• Another option is to sell their loans to any person at a price mutually arrived between dissenting lender and the buyer.

\n

However, it cannot sell it to an asset reconstruction company.

• The agreement has a standstill clause wherein all lenders are barred from enforcing any legal action against the borrower.

\n

 \bullet During standstill period, lenders are also barred from transferring or assigning their loan to any other person except a bank or finance company. \n

 $n\n$

What are the concerns?

 $n\n$

\n

 \bullet The obligation on the lead lender to come up with a time-bound resolution plan can have unintended consequences. $\mbox{\sc h}$ • Banks may be compelled to engage in a rush sale of stressed assets due to arbitrary deadlines.

۱n

• This will work against the interests of lenders looking to get the best price for their stressed assets.

\n

 \bullet Besides, the biggest challenge to bad loan resolution is the absence of buyers to purchase stressed assets. $\ensuremath{\backslash} n$

• There is also the unwillingness of banks to sell their loans at a deep discount to their face value.
