

## Leasing Out Heritage Monuments

### What is the issue?

\n\n

\n

- The Red Fort has been leased out to the Dalmia Bharat Group recently.
- This has led to widespread criticism due to concerns in heritage conservation.

\n

\n\n

### What is the Tourism Ministry's scheme?

\n\n

\n

- The tourism ministry last year launched the '**Adopt a Heritage**' scheme.
- **Objective** - This was an attempt to increase public-private partnership in conservation and maintenance of heritage sites.
- It invited private and public sector companies to become 'Monument Mitras'.
- **Services** - The '**friends of monuments**' will adopt heritage sites.
- The CSR arms of the Monument Mitras will fund the maintenance and upkeep work.
- They will develop basic and advanced amenities at the monuments.
- **Privileges** - The Monument Mitras will be given "visibility" on the monument premises.
- They will as well get visibility in the tourism ministry's Incredible India website.
- **Selection** - Monument Mitras have been selected through "Vision Bidding".
- It is the process where agency with the best vision for the heritage site gets

selected.

\n

\n\n

## **What are the checks in place?**

\n\n

\n

- The five-year contract can be terminated if the company does not comply with the ASI guidelines.

\n

- The legal status of the monument will not change after adoption.

\n

- The company will not collect any money from the public unless allowed by the government.

\n

- Also, profits, if any, will be used to maintain and upgrade tourism facilities.

\n

- An Oversight and Vision Committee will keep a watch.

\n

- It is co-chaired by the secretaries of Tourism and Culture, and with the D-G, ASI, as member.

\n

- Projects will be evaluated based on:

\n

\n\n

\n

i. increase in tourist footfall

\n

ii. improvement in overall tourism sector perception

\n

iii. increase in employment generation

\n

\n\n

## **What are the notable adoptions?**

\n\n

\n

- Government-owned NBCC has adopted Purana Qila.

\n

- SBI Foundation, the CSR arm of state-owned SBI, has adopted the capital's Jantar Mantar.

- \n
- Yatra.com has Hampi, Qutub Minar, and Ajanta and Ellora caves.
- \n
- GMR and ITC have submitted proposals for the Taj Mahal.
- \n
- In all, 93 Archaeological Survey of India-ticketed monuments are open for bidding.
- \n
- 30 companies have been selected to “adopt” some of these sites.
- \n

\n\n

### **What is the recent deal?**

\n\n

- \n
- As per the MoU, the Dalmia Group will spend Rs 25 crore over the next 5 years.
- \n
- It will be on the light and sound show, turnstile gates, app-based multi-lingual audio guide, free Wi-Fi.
- \n
- Besides, a cafeteria and construction of ramps for differently-abled visitors (Tactile Paths) would also be taken up.
- \n
- The Group will get the privilege of placing their name on signage inside the fort.
- \n

\n\n

### **What is the significance of Red Fort?**

\n\n

- \n
- In old times, taking control of the fort was considered a symbolic control of the country.
- \n
- Thus, for long, the fort has been synonymous with the regime that ruled India.
- \n
- The Red Fort is seen as a symbol of the country's freedom struggle.
- \n
- The 1857 War of Independence was led by Bahadur Shah Zafar from the Red Fort.

- \n
- That is why every prime minister has addressed the nation from its ramparts every August 15.
- \n
- It is also a world heritage site, one of the three in Delhi.
- \n
- The other two being Humayun's Tomb and Qutab Minar.
- \n

\n\n

### **What are the concerns with leasing out?**

\n\n

- \n
- Handing over a symbol of the freedom struggle to a corporate entity has raised concerns.
- \n
- Allowing corporates to become managers of heritage sites raises doubts on credibility in heritage conservation.
- \n
- Corporates will have only limited “access” to core areas.
- \n
- Also, there will be “no handing over of monuments”.
- \n
- Nevertheless, at the sites where there is no ASI involved, the external parties may be allowed to touch the building as well.
- \n

\n\n

### **What should be done?**

\n\n

- \n
- ASI has to be cautious in this regard.
- \n
- It must monitor the process and progress of the maintenance and upkeep work.
- \n
- India needs a uniform policy about heritage and heritage conservation.
- \n
- Experts in the field of conservation, senior historians and archaeologists should be involved in formulating a scheme.
- \n
