What is the significance?

 $n\n$

\n

 LEMOA gives both countries access to designated military facilities on either side.

\n

• It can be availed for the purpose of refuelling and replenishment in primarily four areas.

\n

• These are: port calls, joint exercises, training, and humanitarian assistance and disaster relief.

\n

- The biggest beneficiary of the LEMOA is the Indian Navy as it interacts and exercises the most with foreign Navies.
- Also, fuel exchange gets subsumed into the LEMOA and does away with the need for a separate agreement.
- So far, the three services had individual accounts from which payments were being made during military exercises.

\n

• Under the LEMOA, the standard operating procedures (SOPs) are applicable to all three services.

۱n

 LEMOA also gains more significance following the recent signing of COMCASA.

\n

\n

- The COMCASA (Communications Compatibility and Security Agreement) is meant for secure encrypted communications.
- \bullet All these improve the interoperability between the militaries and allow transfer of high-end military platforms.
