

Major Achievements of Council of Scientific & Industrial Research (CSIR) during 2016

Council of Scientific & Industrial Research (CSIR) is an autonomous body under the Ministry of Science and Technology and the largest research and development (R&D) organization in India.

\n\n

CSIR Achievements

\n\n

\n

- [CSIR's Global positioning](#) - CSIR has been ranked 12th in the world amongst the government institutions in the world, according to 2016 report of the Scimago Institutions Rankings.

\n

\n\n

Inventions in Strategic Sector

\n\n

\n

- [Drishti transmissometer](#) - A visibility measuring system provides information to pilots on visibility for soft landing and take-off operation.

\n

- [Head-Up-Display \(HUD\)](#) - It is developed for Indian Light Combat Aircraft, Tejas to aid the pilot in flying the aircraft and critical maneuvers include weapon training.

\n

- [Indigenous Gyrotron](#) - Design and Development of Gyrotron for nuclear fusion reactor.

\n

\n\n

Energy and Environment sector

\n\n

\n

- [Solar tree](#) – designed to occupy minimum space to produce clean power.
\n
- [Lithium Ion Battery](#) – India’s first lithium ion battery fabrication facility based on indigenous novel materials has been established.
\n

\n\n

Value added Agriculture

\n\n

- [Samba Mahsuri Rice Variety](#) – In collaboration with ICAR, an improved bacterial blight resistant Samba Mahsuri variety has been developed.
\n
- [Rice Cultivar \(Muktashree\)](#) – A rice variety which restricts assimilation of Arsenic.
\n
- [White-fly resistant Cotton Variety](#) – Development of transgenic cotton line which is resistant to whiteflies.
\n

\n\n

Healthcare

\n\n

- [JD Vaccine for Farm Animals](#) – Vaccine developed for Johne’s disease affecting sheep, goat, cow and buffalo so as to immunize them and increase milk and meat production.
\n
- [Plasma Gelsolin Diagnostic kit](#) to diagnose pre-mature birth and sepsis related deaths.
\n
- [GOMED](#) – Genomics and other omics technologies for Enabling Medical Decision has been developed which provides a platform of disease genomics to solve clinical problems.
\n

\n\n

Food & Nutrition

\n\n

\n

- [Ksheer-Scanner](#) - A new technical invention to detect the level of milk adulteration and adulterants.
\n
- [Anti-obesity DAG oil](#) - oil enriched with Diacylglycerol (DAG) instead of conventional triacylglycerol (TAG).
\n

\n\n

Waste to Wealth

\n\n

- Non-toxic radiation shielding materials utilizing industrial waste like red mud (from aluminium industries) and fly ash (Thermal power plants) for application in diagnostic X-Ray rooms.
