Hubble Space Telescope

\n\n

\n

- NASA's Hubble Space Telescope has recently detected a massive globular **cluster** that orbits the Milky Way galaxy.
 - \n
- The globular cluster is a huge gravitationally bound collection of stars believed to be 10 billion years old. \n
- They are denser and more spherical than open star clusters and typically contain stars which are thought to have formed at roughly the same time. \n
- Hubble space Telescope is the world's first large, **space-based optical** telescope, named in honor of astronomer Edwin Hubble. \n
- The Hubble is a joint project between NASA and the European Space Agency.
 - \n
- Sun is the energy source of this space-based telescope.
 - \n
- Hubble Telescope has tracked the Neptune's Mysterious Shrinking Storm.
- Some of the interesting Hubble Discoveries are

\n

\n\n

\n

- 1. Creating a 3-D map of mysterious dark matter.
- 2. Discovering Nix and Hydra, two moons of Pluto. \n
- 3. Helping determine the rate of the universe's expansion.
- 4. Discovering that nearly every major galaxy is anchored by a black hole. \n
- 5. Helping refine the age of the universe. \n

Regional Integrated Multi-Hazard Early Warning System for Africa and Asia (RIMES)

\n\n

∖n

- It is an intergovernmental institution for the generation and application of early warning information.
 - ∖n
- It was established in 2009, evolved from the efforts of countries in Africa and Asia, in the aftermath of the 2004 Indian Ocean tsunami. \n
- It works with a multi-hazard framework for the generation and communication of early warning information and capacity building for preparedness and response to trans-boundary hazards.
- It operates from its regional early warning center in Thailand. $\space{\space{1.5}n}$
- The **State government of Odisha** has recently entered into a collaboration with RIMES.

∖n

- It is to enhance early warning system for effective management of all kinds of disasters like flood, drought, heat wave, lightning and road accidents. \n

\n\n

2021 Census

\n\n

\n

• The Registrar General of India (RGI) recently notified the amended census rules.

\n

- The RGI issued the notification as the process for the 2021 Census kicks in. \n
- According to the notification, the data collected during the 2021 Census will be stored electronically. \n
- This is the first time to store date electronically since the decennial exercise was conducted in 1951 in Independent India. \n
- Any tampering with the data will invite punishment under the Information Technology Act, 2000.

Asia Pacific Trade Agreement

\n\n

∖n

• The Asia-Pacific Trade Agreement (APTA) was signed in 1975 as an initiative of UN- Economic and Social Commission for Asia and the Pacific (UNESCAP).

\n

- It is previously named the **Bangkok Agreement**. \slashn
- There are 6-member states to APTA Bangladesh, China, India, South Korea, Laos and Sri Lanka.
- Mongolia is soon to become the $7^{\rm th}$ member of APTA. It has concluded bilateral negotiation on tariff concessions with members of APTA. $_{\rm N}$
- It is a preferential trade agreement (PTA), under which the basket of items as well as extent of tariff concessions are enlarged during the trade negotiating rounds.
- It is a truly region-wide trade agreement spanning East and South Asia, with potential to expand to other sub-regions, including Central Asia and the Pacific.

∖n

- APTA is the only operational trade agreement linking China and India. $\space{\space{1.5}n}$
- It is open to all developing member countries. $\slash n$
- It is the first plurilateral agreement among the developing countries in the region and has the longest effective implementation period amongst the trade agreements in the entire Asia-Pacific.
- Recently, India has agreed to provide tariff concessions on 3,142 products to APTA members from July 1. \n

\n\n

Golden Globe Race

\n\n

∖n

 It is being conducted to commemorate 50 years since the world's first solo non-stop circumnavigation undertaken by Sir Robin Knox Johnston of UK in 1968.

\n

- In this race, all the 18 participants are required to sail around the world, single-handed and non-stop. $\gamman{\car{l}}\end{\car{l}}$
- It commences from Les Sables d'Olonne harbour in France from June 2018 and expected to complete in April 2019. \n
- The uniqueness of the race is that boat designs and technology newer than 1968 is not permitted, hence use of GPS, satellite communication, navigational aids, etc is forbidden. n
- Commander Abhilash Tomy of the Indian Navy is the only invite from Asia to participate in the Golden Globe Race.
- He will sail the boat 'Thuriya', an indigenously built sailing vessel. $\slash n$
- He has already covered 53,000 nautical miles under sail, including a solo non-stop circumnavigation of the globe in 2012-13 onboard Indian Naval Sailing Vessel (INSV) Mhadei. \n
