Cherry Blossom Festival

- Shillong in Meghalaya is known for cherry which belongs to Prunus Cerasoides.
- It is also known as Wild Himalayan Cherry.
- It blossoms in autumn, usually in the month of November.
- In countries like Japan, cherry blossom tree "Prunus yedoensis" which blossoms in spring.
- Meghalaya is the first in the world to celebrate autumn Cherry Blossom Festival based on local cherry trees which bloom uniquely in the state.
- The 2nd India International Cherry Blossom festival was recently organized in the state to boost the tourism.
- However, cherry blossoms fail to appear due to erratic rainfall pattern in the state.
- Huge difference in the day and night temperature have delayed the blossoming.

APEC Summit

- Asia Pacific Economic Co-operation (APEC) 2017 summit was recently held in the city of Danang, Vietnam.
- At the summit, Ministers from 11 Asia-Pacific countries have decided to go ahead with the trade deal "Trans-pacific partnership" without the United

States.

- APEC is a forum for 21 Pacific Rim member economies that promotes free trade throughout the Asia Pacific region.
- It is headquartered at Singapore.
- It was established due to growing inter dependence among Asia Pacific regions, increasing regional trade blocs, to diffuse growing power of Japan.
- The criterion for membership is that the member is a separate economy, rather than a state and the result of it is the inclusion of Taiwan.
- APEC also includes three official observers: ASEAN, the Pacific Islands Forum and the Pacific Economic Cooperation Council
- India is not in the grouping.

Trans-Pacific Partnership

- Trans Pacific Partnership (TPP) is the proposed trade deal among the 12 Pacific Rim nations excluding China.
- It includes Australia, Brunei, Canada, Chile, Japan, Malaysia, Mexico, New Zealand, Peru, Singapore, the United States and Vietnam.
- But the United States has pulled out of the trade deal at the start of the year.
- The finalized proposal was signed on 2016 in Auckland, New Zealand, concluding seven years of negotiations.
- The TPP contains measures to lower both non-tariff and tariff barriers to trade, and establish an investor-state dispute settlement (ISDS) mechanism.

EcAMSat Mission

- EcAMSat – E.coli Anti-Microbial Satellite Mission was scheduled to be launched to International space station.
- E.Coli is a common bacterial pathogen linked to urinary tract infections and foodborne illnesses.
- The mission is intended to investigate spaceflight effects on bacterial antibiotic resistance and its genetic basis.
- It aims to determine the lowest dose of antibiotic needed to inhibit the growth of E.coli.
- It will help to determine the appropriate dosages of antibiotics to protect astronaut health during long-duration human space flight and how antibiotic effectiveness may change as a function of stress on Earth.
- The launch was later postponed.

Valley of Honey

- **Araku Valley** is a hill station in the Eastern Ghats, known for its coffee.
- In the winter season, it turns into valley of Honey with the bloom of Niger flowers and increase in bee keeping.
- Honeybees, which live in highly organised communities, are of great importance to farmers for pollination and maintaining the ecological balance.
- The Araku valley is located close to A.P - Odisha border.
- It is surrounded by various mountains which are endowed with bauxite ores.
- One of the important mountains is Galikonda which is one of the highest in A.P.
- The nearest cave to Araku Valley is Borra cave.

Bonnet Macaques

- The bonnet macaque, an old world monkey, diurnal animal is endemic to southern India.
- They are found only in peninsular India with close proximity to humans.
- It exists as commensals to human, meaning it maintains commensalism with human beings.
- In Commensalism, one organism benefits from the other without affecting it.
- A study suggested that rhesus macaques were invading the bonnet's habitats in south India.
- Rhesus macaques are usually found in northern part of India.
- Decrease in tree cover, loss of contiguous canopies, rapid urbanization causes bonnet's disappearance from temples and tourist spots.
