Kalaram Temple

Recently, Prime Minister of India took part in cleaning the Kalaram temple premises under the 'Swachh Bharat Abhiyan' campaign.

- **Built in** - 1792, with the efforts of one Sardar Rangarao Odhekar.
- **Name** - It derives its name from a **black statue** of the Lord Kala Ram translates literally to "**Black Ram.**"
- **Location** - On the banks of the **River Godavari** in the Panchavati area of the Nashik in Maharashtra.

***Panchavati**, whose comes from the existence of 5 banyan trees in the area. It was a part of Dandakaranya (dense forest in central India). According to Ramayanam, Lord Ram, Sita, and Lakshman set up a hut here as the presence of 5 banyan trees made this region auspicious.*

- **Features** - It has **14 steps**, which represent the 14 years of Ram's exile and has **84 pillars**, which represents the cycle of 84 lakh species that one must complete to be born as a human.
- **Sanctum sanctorum** - Statues of **Ram, Sita, and Lakshman, and a black idol of Hanuman** at the main entrance.
- **Historical importance** - It is also the site of a landmark agitation led by Babasaheb Ambedkar demanding temple entry rights for Dalits more than 90 years ago.

Bhavarth Ramayana, written in Marathi, by Sant Eknath.

Nashik Satyagraha in 1930

- **Lead by** - **B R Ambedkar** along with the Marathi teacher and social activist Pandurang Sadashiv Sane, known as **Sane Guruji**.
- **Aim** - To demand **access for Dalits to Hindu temples**.
- **Events** - On March 2, **1930**, Ambedkar organised a **large protest outside the Kalaram temple** with many dalit protesters.
- Over the next few days, they **sang songs, raised slogans, and demanded the right to enter** the temple.
- Sane Guruji too, travelled all over Maharashtra to campaign for Dalit rights, and led a protest fast at the Vitthal Temple.
- This continued **until 1935**.

In 1927, Ambedkar had launched **Mahad or Chavdar Tale satyagraha** to assert the rights of Dalits to use the water in public places.

Lentil Production

India is set to become the world's largest producer of lentil (masoor) during the 2023-24 crop year on account of higher acreage.

Lentils
<ul style="list-style-type: none">• Scientific name - <i>Lens culinaris</i>• It is a <i>small annual legume</i> of the <i>pea family (Fabaceae)</i> and its <i>edible</i> seed.• Types - Green lentils, Red & Yellow lentils, Black lentils and Brown lentils.• Nutrition - It has <i>high protein and fibre content</i>.• Cultivation - Throughout Europe, Asia, and North Africa but are little grown in the Western Hemisphere.• Benefits - It helps in <i>nitrogen fixation</i> in the soil.

- **Cultivation in India** - Agriculture Ministry shows that **19.45 lakh hectares is under lentil** till January, 2024, 6% higher from last year's area, and 37% higher than the normal area.
- **India's lentil production** - In the 2022-23 crop year, it stood at 1.56 million tonne.
 - According to FAO, **India is world's 2nd largest lentil growers** (1.26 million tonnes) in 2022 while Canada tops the chart. followed by India.

Lentil Production in India has tapered since 2017-18 when the country recorded its highest output of 1.62 million tonne. But Indian government had increased the MSP of lentils to Rs 6,425 per quintal for the Rabi Marketing Season 2024-25 from the Rs 2,950 per quintal in 2014-15.

- **Imports** - It is to meet its domestic requirements, buying mainly from Australia, Canada, Russia, Singapore, and Turkey.
- During the current year, it also imported some quantities of lentil from UAE, USA, Sri Lanka and Nepal.

Poppy straw

Over 10,000 kg of poppy straw, under the cover of cattle feed, has been seized by the Central Bureau of Narcotics in the last 1 year.

- **Poppy straw** - It is the husk left after the opium is extracted from the pods which also contains a very small morphine content.
- **Drug** - It is one of the narcotic drugs under the **Narcotic Drugs and Psychotropic Substances Act, 1985 (NDPS)**.

India is one of the few countries that legally cultivate opium poppy and is the only country on earth that illicitly produces opium gum.

- **Legal regulation** - Possession, sale, use, etc. are **regulated by the State Governments** under the State NDPS Rules.
- Farmers sell the poppy straw to those licensed by the State Governments to purchase poppy straw and any excess poppy straw is ploughed back into the field.
- **Responsible authorities** - The **Central Bureau of Narcotics** is responsible for
 - Issuing licenses to farmers to cultivate opium poppy
 - Supervising and controlling the cultivation
 - Procuring the opium produced by the licenced cultivators
- A Deputy Narcotics Commissioner is in-charge of each of the **3 opium growing States** Rajasthan, Madhya Pradesh and Uttar Pradesh.
- The **Narcotics Control Bureau**, that comes under the Ministry of Home Affairs is also responsible in regulating NDPS.
- **Violation** - Anyone possessing, selling, purchasing or using it without a license or in violation of any conditions of the license is **liable to prosecution under the NDPS Act**.
- **Control operations** - In 2023, record high anti-narcotics operations were undertaken.
 - Under **Operation Prahaar in 2023**, 10,326 hectares of illicit opium field was destroyed in Arunachal and Manipur.

*India is a signatory to the single Convention on Narcotic Drugs 1961, as amended by the 1972 Protocol, the **Conventions on Psychotropic Substances, 1971** and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, 1988.*
