International Rice Research Institute

\n\n

\n

- Recently, cabinet has approved the establishment of the International Rice Research Institute (IRRI), South Asia Regional Center (ISARC) in Varanasi.

\n

- It will be the first international center in the eastern India and centre of excellence in rice value addition.

\n

- The centre will be governed by the Department of Agriculture.

\n

- For setting up of the Centre, a Memorandum of Agreement will be signed between Department of Agriculture and IRRI, Philippines.

\n

- **IRRI** - IRRI is a non-profit autonomous international research and training organization, organized in 1960.

\n

- Indian Council of Agricultural Research (ICAR) is IRRI's nodal agency in India.

\n

- India's two main rice research centers are Central Rice Research Institute

(CRRRI) in Cuttack and the Directorate of Rice Research (DRR) in Hyderabad.

SASEC Road Connectivity Program

\n\n

\n

- South Asian Sub-Regional Economic Cooperation (SASEC) Road Connectivity Investment Program aims at upgradation of road infrastructure in Bangladesh, Bhutan, Nepal and India (BBIN).

\n

- The project corridor is also a part of the Asian Highway No. 01 (AH01) and acts as India's Gateway to the East.

\n

- The project is being developed with Asian Development Bank's loan assistance.

\n

- As part of this program, cabinet recently approved the widening and upgrading of Imphal- Moreh section of NH 39 in Manipur.

\n

\n\n

South Asia Subregional Economic Cooperation (SASEC)

\n\n

\n

- It was set up in 2001 including Bangladesh, Bhutan, India, Maldives, Myanmar, Nepal and Sri Lanka.

\n

- Asian Development Bank (ADB) serves as the Secretariat for the SASEC member countries.

\n

- It aims to promote regional prosperity by improving cross-border connectivity, boosting trade among member countries, and strengthening regional economic cooperation.

Veblen good

\n\n

- \n
- It is a good for which demand increases as the price increases, because of its exclusive nature and appeal as a status symbol.
\n
- It violates the law of demand, which states that when price of a good increases, the demand decreases.
\n
- Luxury good like diamonds, whose appeal depends on their exorbitant price is an example of Veblen good.
\n
- Veblen goods are similar to Giffen good which also violates the law of demand.
\n
- The Giffen good is typically an inferior product unlike veblon good which is mostly expensive products and status symbols.
\n
- For e.g. when the price of a necessary good rises (eg. a food staple), consumers are forced to substitute out even more expensive alternatives to purchase more of the staple.

\n\n

Larsen C ice shelf

\n\n

- \n
- The Larsen C shelf is a mass of floating ice formed by the glaciers that have flowed down off the eastern side of the Antarctic Peninsula into the ocean.
\n

- It is one of the biggest icebergs covering a rough area of 6000 sq.km.
\n
- The two nearby smaller shelves, Larsen A and Larsen B had disintegrated earlier due to warming climate in the peninsula.
\n
- Recently, Larsen C has just broken away from Antarctica, following a large crack in its ice over a decade.
\n
- Currents and winds in the ocean might push it north of the Antarctica where it could become a hazard to shipping.
