

## Prelim Bits 22-12-2017

\n

### **DARPAN**

\n\n

\n

- Ministry of Communication launched “DARPAN - Digital Advancement of Rural Post Office for A New India”.

\n

- The project aimed at realizing financial inclusion of un-banked rural population.

\n

- It is IT modernization project which intends to provide a low power technology solution to each branch postmaster to improve service delivery.

\n

- DARPAN offers core banking services such as cash deposit and withdrawal in savings bank and recurring deposit, mini statement, Aadhaar seeding and daily transaction report.

\n

- The application will also be used for the reimbursement of social security benefits such as MNREGS, old age pension and DBT.

\n

- It is targeted to complete the project by March 2018.

\n

\n\n

### **SRISTI**

\n\n

\n

- SRISTI - Sustainable Rooftop Implementation for Solar Transfiguration of India is a proposed scheme by the Ministry of New and Renewable Energy.

\n

- The proposed scheme will incentivise the installation of roof top solar projects in India.

\n

- It aims to achieve a national solar rooftop target of 40 GW by 2021-22.

\n

- Under SRISTI, a central financial assistance will be provided only for installation of roof top solar plants in residential sectors.  
\n
- Once approved, the concept will acts as a basis for phase – II of solar rooftop power programme.  
\n

\n\n

## **ICGS Sujay**

\n\n

- \n
- Samarth Class OPV is a series of six 105m offshore patrol vessel (OPV) being built by Goa Shipyard Limited for the Indian Coast Guard.  
\n
- Indian Coast Guard Ship Sujay is the sixth in the series of six OPV under Samarth class.  
\n
- The other ships are ICGS Samarth, Shoor, Sarathi, Shaunak, Shaurya.  
\n
- ICGS Sujay is based at Paradip, Odisha under the operational and administrative control of Commander Coast Guard Region (North-East).  
\n
- It will be deployed extensively for EEZ surveillance and will give a fillip to the maritime protection in the state of Odisha and West Bengal in particular.  
\n

\n\n

## **Kimberly Process**

\n\n

- \n
- The Kimberley Process (KP) is a joint Government, International Diamond Industry and Civil Society initiative to stem the flow of Conflict Diamonds.  
\n
- Conflict Diamonds- Rough diamonds used by rebel movements or their allies to finance conflict aimed at undermining legitimate governments.  
\n
- In its 2016 session held in Dubai, India was appointed as Vice Chair of KP for 2018 & Chair for 2019. The EU will be chair for 2018.  
\n
- This year, the session was held at Brisbane, Australia.  
\n
- It came into effect in 2003 with representation from 81 countries including

EU.

\n

- India is one of the founding members, which held chair for the year 2008.

\n

\n\n

## **Ro - Ro services in India**

\n\n

\n

- In RO-RO service, vessels have either built-in or shore-based ramps that allow the cargo to be efficiently rolled on and off the vessel when in port.
- This is in opposite to the lift-on and lift-off (lo-lo) vessels, which use a crane to load and unload cargo.
- This service is currently in operational in two states - Gujarat and Assam.
- Inland Waterways Authority of India (IWAI) rolled out a regular RO-RO between Assam-Meghalaya connecting Dhubri and Hatsingimari.
- Dhubri and Hatsingimari are located in the north bank and south bank of River Brahmaputra.
- Recently, India's first RO-RO passenger (RO Pax) service was inaugurated between Ghogha in Saurashtra and Dahej in south Gujarat in the Gulf of Khambhat region.

\n

\n

\n\n

\n\n

\n

\n

\n\n

\n\n

## **Mini-Earth like Planets**

\n\n

\n

- The Alpha Centauri system is located 24.9 trillion miles from Earth, which is the closest star system to our planet.

\n

- An Earth-like planet was discovered last year in the system.

\n

- Scientists have recently detected data from the observatory located in Chile.

\n

- The data shows that the planet orbiting around stars Alpha Centauri A and B would be almost small, rocky planets.

\n

- This new information will help astronomers narrow down the search area and prioritize their efforts to detect additional planets in the system.
