Government Agencies to Monitor Computers

 $n\n$

\n

- Union Home Ministry has recently issued a notification allowing 10 government agencies to monitor and decrypt any information stored in any computer on grounds of internal security.
- It is in accordance with the power conferred upon the government under Section 69 of the Information Technology Act, 2000.
- The agencies will now be able to snoop on exchange of information and material between individuals and banned or militant groups.
- \bullet Each case of interception, monitoring, decryption is to be approved by the Union home secretary and reviewed every 2 months by the cabinet secretary. \n
- The central agencies being given power under the notification are,

Pokkali Paddy

 $n\n$

\n

- Pokkali paddy variety is a saltwater-tolerant paddy grown in the coastal fields of Alappuzha, Ernakulam and Thrissur districts of Kerala.
- It is endemic to Kerala and was given Geographical Indication (GI) tag.
- It grows to a height of up to 2 m and it survived the recent devastating floods in farmlands across the State.

\n

• The single-season paddy is raised in saltwater fields between June and November followed by a season of fish-farming.

\n

 After the harvest, the paddy stubble in the fields acts as food and shelter for shrimp and small fish.

\n

• Fish excreta and scales, along with the decomposed stubble, provide excellent natural manure for another season of Pokkali.

\n
The cultivation is labour intensive and this forming trade

• The cultivation is labour intensive and this farming tradition is under threat due to lack of labour.

States' Startup Ranking

 $n\n$

۱n

- The Department of Industrial Policy and Promotion (DIPP) announced results of the first ever States' Start-up Ranking 2018 recently.
- The key objective of the exercise was to encourage States/UT to take proactive steps towards strengthening the Start-up ecosystems in their states.

\n

• The States have been identified under different categories - Start-up policy leaders, incubation hubs, seeding innovation, scaling innovation, regulatory change champions, procurement leaders, communication champions, North-Eastern leader, and hill state leader.

\n

• Based on these categories, the States have been recognised as the Best Performer, Top Performers, Leaders, Aspiring Leaders, Emerging States and Beginners.

\n

- Gujarat has been identified as the **best performer.**
- Karnataka, Kerala, Odisha, and Rajasthan have been identified as the top performers.

\n

• Andhra Pradesh, Bihar, Chhattisgarh, Madhya Pradesh, and Telangana have been identified as leaders.

Windfarm in Norway

 $n\n$

\n

• Norway is planning to build megawatt Storheia wind park in Northwest coast.

\n

- It is part of Europe's largest onshore wind power project.
- United Nations calls to suspend the project because the area is used fore reindeer grazing, a traditional activity of the Sami people.
- The sight and sound of the turbines in the park during winter months, could frighten the animals.
