

## **Prelim Bits 30-10-2018**

### **Train 18**

\n\n

\n

- It is India's first engine-less semi-high speed train, rolled out recently by Chennai based Integral Coach Factory (ICF).

\n

- It has been designed to maximum operating speed of 160 kmph.

\n

- It will eventually replace the Shatabdi Express for inter-city travel and it will cut travel time by 15% compared to Shatabdi.

\n

- This fully air-conditioned train is nicknamed "The NextGen Shatabdi".

\n

- It is driven by a self-propulsion module and it is the first long-distance train without separate locomotive (engine).

\n

- The Shatabdi trains were introduced in 1988 and are presently running on over 20 routes connecting metros with other important cities.

\n

\n\n

### **Shanghai Cooperation Organisation (SCO)**

\n\n

\n

- SCO is a Eurasian political, economic, and military organisation which was founded by the leaders of China, Kazakhstan, Kyrgyzstan, Russia, Tajikistan, and Uzbekistan.

\n

- India and Pakistan has recently become members of SCO in its 2017 meeting held at Astana, Kazhakhstan.

\n

- Observer status is given to Iran, Mongolia, Belarus, Afghanistan.

\n

- The official working languages of the Shanghai Cooperation Organisation are Chinese and Russian.

\n

- The Regional Anti-Terrorist Structure (RATS), headquartered in Tashkent, Uzbekistan, is a permanent organ of the SCO.  
\n
- It serves to promote cooperation of member states against terrorism, separatism and extremism.  
\n

\n\n

### **SCO Meeting on Urban Disaster**

\n\n

- \n
- India is going to host Shanghai Cooperation Organisation's meeting on Urban Disaster Handling.  
\n
- Pakistan has accepted India's invitation for the meeting.  
\n
- It involves the joint mock exercise on urban earthquake search and rescue by National Disaster Response Force (NDRF).  
\n
- It will provide an opportunity to member-countries to validate their preparedness and resilience to various disasters and making humanitarian assistance in disaster response more effective.  
\n

\n\n

### **Currency Swap Arrangement**

\n\n

- \n
- India and Japan has agreed to enter in to currency swap arrangement of \$75 billion.  
\n
- Currency swap arrangement means one country exchanges its national currency for that of another or even a third currency.  
\n
- Under this arrangement, India can acquire dollars from Japan in exchange for rupees.  
\n
- So, India can acquire yen or dollars from Japan upto \$75 billion in exchange for rupees under a fixed exchange rate.  
\n
- This exchange has to be reversed after an agreed period. Conversely, Japan can also seek dollars from India in exchange for yen.

- \n
- This facility will serve as a line of defence for our country's foreign exchange reserve.
- \n
- **Advantages** - Short -term liquidity mismatches can be met quickly.
- \n
- It will help stabilize the rupee, which has witnessed the steepest fall in recent years.
- \n
- It improves market sentiment, curbs speculative pressure on the rupee.
- \n
- Foreign Investors will draw comfort from the arrangement.
- \n

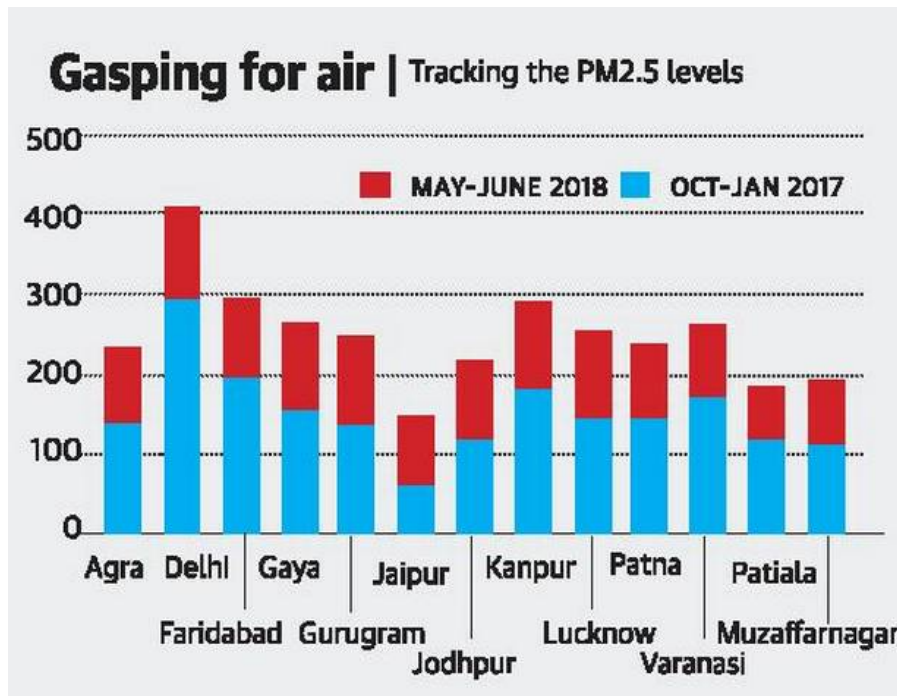

\n\n

## **WHO Report on Child Health**

\n\n

- \n
- World Health Organisation has recently released report on "Air Pollution and Child Health".
- \n
- According to the report, every day around 93% of the world's children under the age of 15 years (1.8 billion children) breathe air that is so polluted it puts their health and development at serious risk.
- \n
- The report highlights the reason why children are particularly vulnerable to the effects of air pollution.
- \n
- One is that the children breathe more rapidly than adults and so absorb more pollutants.
- \n
- The other reason is that pollutants are often more concentrated nearer to ground level.
- \n
- It added that their developing organs and nervous system are also more susceptible to long-term damage than those of adults.
- \n
- The study found that in poorer countries, 98% of all children under five are exposed to PM2.5 above WHO guidelines.
- \n
- The report is being launched on the eve of WHO's first ever Global Conference on Air Pollution and Health in Geneva.
- \n

\n\n

\n\n

## Growth Rate of States

\n\n

\n

- According to the recent ranking on growth rate, Andhra Pradesh has achieved the first rank in the country with an average growth of 10.5% during the last 4 years.

\n

- It surpassed the average growth rate in the country which stood at 7.3% for 4 years.

\n

- It is followed by Telangana in the 2<sup>nd</sup> place and Karnataka in the 3<sup>rd</sup> place.

\n

- Andhra Pradesh is the only State to clock the double-digit growth rate.

\n

- Gujarat, which is considered the most developed State, registered a growth of 10.5% in 2014-15 but it slipped in the following years.
