

Proposals for Enhancing Farmers Income

Why in news?

 $n\n$

Union budget has announced new proposals for enhancing the farmers' income.

What are the practical problems faced by the farmers?

 $n\n$

\n

• Over 70 per cent of the farmers in India seldom receive the MSPs for want of official market intervention.

۱n

• These prices are effective only for wheat and rice and, occasionally, for a couple of other crops in a handful of states, elsewhere, the procurement infrastructure does not exist.

۱n

- Recently announced MSP formula does not address the demands by the farmers as MSPs for many crops are already higher than 1.5 times the paid-out costs and the estimated value of family labour.
- Small and marginal farmers are unable to transact at the markets run by the agricultural produce marketing committees (APMCs).
