

RBI on interest rate cuts

What is the issue?

\n\n

The Monetary Policy Committee (MPC) of the Reserve Bank of India (RBI) is planning for a cut in the interest rates.

\n\n

What is Monetary policy committee?

\n\n

\n

- The Finance Act 2016, provide a statutory and institutionalised Monetary Policy Committee for maintaining price stability.

\n

- The MPC has the task of fixing the benchmark policy rate (repo rate) required to contain inflation within the specified target level.

\n

- There are six Members of Monetary Policy Committee, three Members will be from the RBI.

\n

- The other three Members of MPC will be appointed by the Central Government.

\n

\n\n

What are importance of interest rates?

\n\n

\n

- A change in the interest rate has consequences for the exchange rate, which has effects on inflation, investment and growth.

\n

- India's "import-oriented" growth strategy is based on availability of foreign finance.

\n

- The interest rate has a greater importance in sustaining inflows of foreign finance.

\n

\n\n

What is the present need for rate cut?

\n\n

\n

- The core inflation and inflationary expectations are high.

\n

- A lower interest rate is expected to revive investment or increase capacity utilisation.

\n

- Companies are debt-laden and banks are burdened with non-performing assets.

\n

\n\n

What will be consequences of reduced interest rates?

\n\n

\n

- The inflow of foreign finance is most likely to decline, this may result in a serious depreciation of the rupee.

\n

- This would threaten to increase inflation, bring insolvency to companies that have borrowed in foreign currency.

\n

- There will be negative impact on manufacturing.

\n

- There are chances of economic slowdown.

\n

\n\n

How the issues can be addressed?

\n\n

\n

- A transition from foreign finance-led growth to growth driven by both exports and domestic demand is required.

\n

- The policy focus on achieving current account surplus is needed.

\n

- Import-dependence of manufacturing sectors need to be curbed.

\n

- Growth of domestic demand can be fetched from income growth in agriculture.
