

RFID Technology in GST E-way Bills

What is the issue?

\n\n

∖n

- Union government planned to implement e-way bills from $1^{\rm st}$ Feb 2018 but it was postponed. Click <u>here</u> to know more GST e-way bill. \n
- The challenges in implementing the e-way bill can be addressed using RFID technology.

\n

\n\n

What was the decision on e-way bill?

\n\n

∖n

- The e-way bill is virtually an electronic version of the way bill in the valueadded tax (VAT) regime which required to be carried as a physical printout for the benefit of the checking authorities. \n
- Union government had made a compulsory introduction of the electronic way (e-way) bill from February 1, for the movement of consignments above Rs 50,000.

∖n

- The decision was even accepted by 15 states to follow the same deadline for the introduction of intra-state e-way bills. \n
- But due to practical challenges of patchy implementation of the goods and services tax (GST) the decision was postponed indefinitely. \n

\n\n

What are the challenges incurred in e-way bill operation?

\n\n

∖n

- The network which is being used for the e-way bill was ill-equipped to bear the increased load points. γ_n
- The GST Network portal had crashed in several states two days before, bringing truck movements to a virtual standstill. \n
- This e-replication of the provision of the VAT regime created an interminable queues at inter-state checkpoints. \n
- The failure escaped media scrutiny due to the tabling of Union Budget. $\space{\space{1.5}\space$

\n\n

What are measures being considered by the government?

\n\n

\n

- Government is planning to introduce e-way bill system for intra-state movements first and testing the network's load-bearing ability before rolling it out for inter-state movements.
- The possibility of initially limiting the e-way bill to higher value consignments is other one. $\gamman{\cap baseline nmmon \cap baseline nmmo$
- RFID tags for goods or consignments is also on the discussions as a useful alternative.

\n

\n\n

How a RFID tag will address the issue?

\n\n

\n

- Radio frequency identification (RFID) these tags are being used in our day today life from supermarkets to toll collection. \n
- RFID tags has been already introduced in India for improving traffic management, for new vehicles registration etc.
- RFID tags for e-way bill can be used through loading the information about the consignment which is being carried through the vehicle which already has a RFID.

\n

• When a vehicle crossing any toll gate the RFID will be scanned and information regarding the consignment with precise GST number will be gathered.

\n

- The collected information will be updated through an online portal and can be used further by any concerned agencies. γ_n
