

Securing Civil Society - Activists' Arrest

What is the issue?

\n\n

\n

- The Pune Police raided rights activists and academicians across the country and arrested five top activists, allegedly for Maoist links.

\n

- The arrests have come as the latest blow inflicted on civil society for arbitrary reasons.

\n

\n\n

What are the recent developments?

\n\n

\n

- In a democracy, the individual transits from subject to citizen.

\n

- But the modern democratic state is armed with technologies of surveillance and control.

\n

- With this, it had come to possess extraordinary power.

\n

- In effect, rights-bearing citizen of the democratic state has become more vulnerable.

\n

- A democratic state has started to terrorise, kill and drill fear in the mind of the body politic.

\n

- The other dominant institution, the market, is largely amoral.

\n

- It is increasingly becoming indifferent to human suffering.

\n

- It cares little for citizens exploited by the state and by its own need for resources, labour, and profit.

\n

\n\n

How did the civil society evolve?

\n\n

\n

- In the aftermath of the Emergency (1975-77), civil liberties movement made a strong appearance.

\n

- The movement eventually developed into a human rights movement.

\n

- It took on a significant task of protecting the fundamental right to life and liberty.

\n

- These two rights lie at the core of other rights which are critical for human beings.

\n

- It incorporates the right not to be tortured or killed, right not to be arrested and imprisoned without due cause, etc.

\n

- Civil society is now a more plural sphere with all manners of associations.

\n

- It ranges from football clubs to reading groups to film fan societies.

\n

\n\n

How significant is the civil society?

\n\n

\n

- **Society** - Civil liberty and/or human rights activists are lawyers, academics, journalists and public minded citizens of India.

\n

- It is the human concern for the poor and the vulnerable that works as their driving force.

\n

- Civil society activists are instrumental in protecting the overall moral conscience of the society.

\n

- **Rights** - Human rights groups have become the custodian of the Constitution's Fundamental Rights.

\n

- They have investigated cases of

\n

\n\n

- \n
- i. arbitrary imprisonment
 - \n
 - ii. custodial deaths
 - \n
 - iii. deadly encounters
 - \n
 - iv. coercion of citizens speaking up against the state or dominant groups
 - \n

\n\n

- \n
- These organisations have documented the causes and triggers of communal and caste violence.
 - \n
 - They have protected the rights of vulnerable sections of people, the Adivasis, Dalits and Muslims.
 - \n
 - **Check** - A vibrant civil society helps citizens access the centres of power and privilege.
 - \n

\n\n

- \n
- It stands between the individual, and the omnipresent and omnipotent state.
 - \n
 - It has the capacity to challenge the brute power of the state.
 - \n
 - Petitions, protests, dharnas and ultimately judicial activism are instrumental in achieving their goals.
 - \n

\n\n

Why is civil society crucial now?

\n\n

- \n
- Over 10 years ago, civil society spoke for the right to food, employment, education, information and land.
 - \n
 - Today, few organisations demand the right not to be lynched and struggle for right to life and liberty.
 - \n
 - Governments are starting to repress civil societies that are in clash with their ideology.

\n

- Right wing organisations are seeking to dominate the space between the individual, market and state.

\n

- With these having serious consequences, the civil society's role is more crucial for democracy now than ever before.
