

Shale gas import

Click here to know about Shale Gas

 $n\n$

Why in news?

 $n\n$

India will receive its first cargo of shale oil from the US, to be processed at an Indian Oil Corporation (IOC) refinery.

 $n\n$

What are the recent developments?

 $n\$

\n

- IOC had earlier received the first shipment to India, since the US stopped oil exports in 1975. Click here to know more.
 \(\text{n} \)
- The first cargo was conventional crude oil which is being processed at the Paradeep refinery in Odisha.
- The second cargo has shale oil and will be landing at Vadinar port in Gujarat.
- The shale oil will be refined at one of IOC's refineries in Gujarat, Panipat, or Agra.

\n

• Indian companies have contracted close to 8 million barrels of crude oil from the US.

\n

• Besides oil, Gas Authority of India (GAIL) will be bringing in the first cargo of liquefied natural gas from the US to India early next year.

 $n\n$

What is the significance?

 $n\n$

\n

• Petroleum product <u>consumption</u> in India has been growing consistently in the last few years.

\n

• India has begun to contract crude oil from the US as part of its strategy to diversify oil sourcing.

۱n

- \bullet India finds US crude oil to be relatively $\underline{\text{competitive}}$ in terms of price. $\ensuremath{^{\text{h}}}$
- \bullet The Trump administration also believes that oil and gas trade has the potential to increase <u>bilateral trade</u> between the two countries. \n

 $n\n$

How does the trade work?

 $n\n$

\n

• Crude oil import by state-owned refiners follow the usual FOB (free on board) import pattern.

\n

• However, the US crude cargoes are being shipped on a cost-and-freight (C&F) arrangement.

\n

• Under this, the contractor i.e. the Indian companies are responsible for the transportation.

\n

• And for this, they have to take special permission from the Ministry of Shipping.

\n

• The overall cost of US crude oil is found to be cost-effective under this arrangement.

Quick Facts

 $n\$

Cost, Insurance and Freight (CIF) and Free on Board (FOB)

 $n\n$

\n

- These are international shipping agreements used in the transportation of goods between a buyer and a seller and differ in who assumes liability for the goods during transit.
- In <u>CIF agreements</u>, insurance and other costs are assumed by the seller; goods are not considered to be delivered until they are in the buyer's possession.

• <u>FOB contracts</u> relieve the seller of responsibility once the goods are shipped; the buyer then assumes all liability.
