Vanuatu's Golden Passport Scheme

Why in News?

Fugitive former IPL chief Lalit Modi has applied to surrender his passport to the Indian High Commission in London, and acquired the citizenship of Vanuatu recently.

- Vanuatu has a citizenship by investment (CBI) or “golden passport” program, which allows **wealthy individuals** to purchase its passport.
- It allows individuals to acquire citizenship in a country by making significant financial contributions to its economy.
- It is the fastest and most simple citizenship program available in Vanuatu.
- The applicant does not even have to set foot in the country to become a citizen, **all documentation** can be provided digitally.
- **Cost** - The cost of Vanuatu citizenship ranges from \$135,500 to \$155,500 (Rs 1.18 cr to 1.35 cr), with options to also purchase citizenship for a family of 4.
- **Processing time** - Vary from 30 to 60 days after the filing of the application.
- *The BBC reported in 2019 that passport sales account for roughly 30% of the country's revenue.*
- **Other countries having CBI** - Malta, Turkey, Montenegro, Antigua and Barbuda, Dominica, and Egypt.
- **Advantages** - At present a Vanuatu passport allows visa-free entry to **113 countries**.
- Vanuatu is, for all intents and purposes, a **tax haven** (offers foreign businesses and individuals minimal or no tax liability, along with a politically and economically stable environment).
- It is a **zero-tax jurisdiction** that is free of personal income tax, capital gains tax, inheritance tax, and wealth tax.
- While Vanuatu does charge indirect taxes such as VAT, as well as tax on property transactions, rates are **typically lower than other countries** in the South Pacific.
- It also has lax reporting requirements, which make it a strategic jurisdiction for tax purposes.
- Offshore financial services is one of the biggest revenue-generators for the country.
- **Henley Passport Index** - It ranks the Vanuatu passport as the 51st strongest in the world (out of 199 countries), ahead of Saudi Arabia (57), China (59), and Indonesia (64). India ranks **80th**.

- It is a tiny island nation in the ***South Pacific***, comprises 83 fairly small volcanic islands, of which only 65 are inhabited.
- The largest, Espiritu Santo, roughly boasts **32%** of the land area of Vanuatu.
- It lies to the east of Australia and the north of New Zealand.
- **Capital** - Port Vila lies on the island of Efate, the third largest by area and largest city by population.
- **Volcanic activity** - Vanuatu has several active volcanoes, including ones that lie underwater. Volcanic activity is common, and poses an ever-present danger to the islands' inhabitants.
- Tombuk eruption, one of the largest volcanic eruptions in the world destroyed the Kuwae island, and led to the formation of two smaller islands — Epi and Tongoa.
- Yasur on the southern island of Tanna is one of the most accessible active volcanoes in the world.

Hantavirus

Why in News?

The recent passing of Betsy Hackman, wife of renowned American actor Gene Hackman, has drawn attention to deadly Hantavirus.

- **Cause** - It is a family of viruses carried by certain rodents, such as deer mice, white-footed mice, rice rats, and cotton rats.
- **Transmission** - Humans typically contract Hantavirus through contact with infected rodent urine, droppings, and saliva.
- The most common way the virus spreads is through ***aerosolisation***, when fresh rodent waste is disturbed, the virus particles become airborne and can be inhaled.
- This often happens during activities like sweeping infested areas, cleaning long-closed spaces such as sheds, or handling contaminated materials.
- Additionally, Hantavirus can enter the body if a person touches their eyes, nose, or mouth after handling contaminated materials or if the virus enters an open wound.
- Though extremely rare, the virus can also spread through rodent bites.
- They do not typically transmit from person to person, although rare cases of human-to-human transmission have been reported with certain strains, such as the Andes virus.
- **Strains** - Several strains exhibiting varying degrees of severity.
- **Stages - Prodromal phase** - Appears one to eight weeks after exposure.
- It begins with flu-like symptoms such as fever, chills, muscle aches (often in the thighs, hips, and back), fatigue, headaches, and abdominal pain. Nausea, vomiting, and diarrhea may also occur.
- **Second Phase** - Signals the onset of HPS, brings more severe symptoms.
- These include a sudden shortness of breath, coughing, and chest tightness as the lungs fill with fluid.
- This stage can escalate quickly, causing acute respiratory distress and, in some cases,

heart failure. Without prompt medical intervention, the condition can be fatal.

- **High risk groups** - People who live or work in areas where rodent populations are more prominent. This includes farmers, construction workers, and those involved in cleaning old or unused spaces.
- It also includes children under 5, pregnant women, and individuals with weakened immune systems.
- **Prevention** - It remains the most effective way to combat hantavirus.
 - Keeping homes and workplaces rodent-free by sealing entry points,
 - Safely disposing of food and garbage, and
 - Wearing protective gear when cleaning areas with rodent activity can significantly reduce the risk.
- **Treatment** - Currently, there is no specific antiviral treatment or cure for Hantavirus.
- Patients are often given oxygen therapy to ease breathing difficulties. Severe cases may require intensive care, including mechanical ventilation to assist lung function.

Koch-Rajbongshis

Why in News?

Leaders of the Koch-Rajbongshi Sanmilita Joutha Mancha recently submitted a 15-point memorandum to the Bharatiya Janata Party's Assam unit president Dilip Saikia highlighting their demands.

Mancha is an umbrella body comprising 12 organisations of the Koch-Rajbongshi community, which once ruled large swathes across present-day Assam, West Bengal, and Bangladesh.

- **Demands**
 - They demanded Scheduled Tribes status for their community.
 - Re-establishment of the historic Kamatapur State.
 - Creation of a Chilarai Regiment in the armed forces in honour of the community's legendary warrior.

Assam's quota pie

- **Related Committees** - Mahesh Kumar Singla Committee.
- **Koch-Rajbongshis** - Koch Rajbongshi is an ancient tribe originally from the ancient Koch kingdom.
- Koch Rajbongshi are an indigenous tribe of South Asia who live in Assam, Bengal, Bihar, Bangladesh, Nepal, and Bhutan. They are also known as the Rajbanshi or Rajvanshi.
- The Koch-Rajbongshis are one of 6 ethnic groups seeking ST status for decades and currently enjoy Other Backward Classes status.
- The others are Adivasis, Ahoms, Chutias, Mataks, and Morans.
- **Origin** - The Koch Rajbongshi's called themselves *Kamateshwars* (the rulers of Kamata/Kamatapur Kingdom).
 - But their influence and expansions were so extensive and far reaching that their kingdom is sometimes called the Koch kingdom.
- **Language** - Rajbongshi/Rajbanshi language spoken by one crore people, according to a 2001 census report for West Bengal.
- **Religion** - The Rajbongshi were primarily animist, but later on they followed Hinduism/Sanatana (both Shaiva and Vaishnavite).
- A few section of Rajbongshi people were also found to be followers of Christianity, both Roman Catholic and protestant.

Preventive Detention

Why in News?

The Supreme Court has allowed a plea against preventive detention of a man allegedly engaged in organized smuggling, as the detaining authorities failed to consider conditions imposed on him.

- **Recent SC Ruling** - Preventive detention prescribed safeguards must be strictly observed to ensure due compliance with constitutional and statutory norms and requirements.
- **Preventive detention** - It is the act of detaining someone **without a court trial or conviction**.
- It is used to **prevent someone from committing** a crime or disrupting public order.
- **Purpose** - To prevent someone from committing a crime,
 - To prevent someone from disrupting public order,
 - To prevent someone from escaping prosecution, and
 - To maintain national security.
- **Constitutional provisions** - Article 22(3) of the Constitution allows preventive detention for reasons of state security and public order.
- The Constitution provides safeguards for people in preventive detention.
- Both Parliament and State Legislature have powers to enact a law for preventive detention while Parliament has exclusive power over reasons connected with defence, foreign affairs, or security of India.
- **Related Laws**
 - Foreign Exchange Conservation and Prevention of Smuggling Activities, 1974 (COFEPOSA)
 - Unlawful Activities (Prevention) Act, 2008 (UAPA)
- **Previous rulings of Supreme Court** - The Supreme Court has ruled that advisory boards should prevent the state from using power capriciously
- The Supreme Court has ruled that the grounds for preventive detention should be communicated to the detainee as soon as possible
- **Landmark case** - The A K Gopalan v/s State of Madras case related to the Preventive Detention Act of 1950.
