National Innovation Challenge for Drone Research (NIDAR)

Why in news?

Ministry of Electronics and Information Technology (MeitY) and Drone Federation India has recently launched NIDAR to boost Talent, R&D and Skill Development in Drone Ecosystem.

• Aim - NIDAR is *India's largest national drone innovation* initiative that motivates students and researchers from academia to *build collaborative autonomous drones* across 2 critical domains:

critical domains	Disaster Management (Scout & Deliver Drones): Identifying and assisting survivors in disaster-affected areas using autonomous drones for scouting, communication, and parcel delivery.
2 critical o	Precision Agriculture (Scan & Spray Drones): Enhancing productivity and sustainability in agriculture through targeted interventions like crop health monitoring and precise pesticide/nutrient delivery.

- Launched under The SwaYaan Initiative.
- **Benefits** It offers a *total prize pool of INR 40 Lakhs* along with *opportunities for startup incubation*, cloud credits, software support, and internships with India's leading drone companies.

Significance Spark interest among students about aerospace and drones.

Enable students to solve real problems by connecting student projects to industry needs.

Encourage teams to work together from different fields of study.

Provide mentorship and industry experience for students.

Teach students how to raise funds and promote their ideas.

Make the competition a respected platform for drone innovation.

SwaYaan Initiative

• SwaYaan is a National Initiative to develop and strengthen India's UAS/Drone ecosystem, aligning with the Government's vision to make India a global drone hub by 2030.

• **Aim** – The program empowers learners from undergraduates to faculty and open learners across five key technical areas through 1,500+ academic, research, and knowledge-sharing activities.

• Ministry - Ministry of Electronics and Information Technology.

• **Implementation** – Through a network of <u>30 Premier Academic and R&D institutions</u>, including IIT, IISc, IIIT, NITs, IIITDM, C-DAC, and NIELIT Centres.

Drone Federation India (DFI)

• A *non-government, non-profit*, industry-led body representing 550+ drone companies and 5500+ drone pilots across the country.

• **Vision** – To make India a global drone hub by 2030, and it promotes the design, development, manufacturing, adoption and export of Indian drone and counter-drone technology worldwide.

• **Significance** – A premier industry *will support participating students in NIDAR* by providing mentorship and industry exposure.

• DFI <u>enables ease of doing business</u>, promotes the adoption of drone technology, and hosts several programs like Bharat Drone Mahotsav.

New IT Rules for Removal of Harmful Online Content

Why is in News?

The government is strengthening laws to fight cybercrimes, especially obscene and child abuse content, ensuring better online safety.

Key Provisions for Digital Content Regulation

IT Act, 2000

- Punishes publishing/transmitting obscene or sexually explicit material online.
- Stricter penalties for content involving children in sexually explicit acts.

IT Rules, 2021 (Intermediary Guidelines & Digital Media Ethics Code)

- Intermediaries (including social media platforms) must follow due diligence, or they lose legal protection from third-party content.
- Messaging platforms must identify the first originator of content in cases related to *rape, sexually explicit material, or child sexual abuse material (CSAM).*
- Intermediaries must remove explicit content *within 24 hours if it exposes private areas, nudity, or sexual acts.*
- <u>Grievance Appellate Committees</u> established to hear user appeals against social media decisions.

Film & OTT Content Regulation

- <u>CBFC (Central Board of Film Certification)</u> regulates film content under the <u>Cinematograph Act, 1952</u> and <u>Cinematograph (Certification) Rules 1983</u>.
- Films unsuitable for minors are certified for adult audiences only.
- OTT Platforms must follow a code of ethics under IT Rules, 2021:
 - $\circ\,$ Classify content into age-appropriate categories.
 - $\,\circ\,$ Restrict access for children to inappropriate content.
 - $\circ\,$ Implement age verification for adult content.

Government Measures to Strengthen Cybercrime Prevention

- National Cyber Crime Reporting Portal Allows citizens to report all types of cybercrimes, with a special focus on crimes *against children*.
- Indian Cyber Crime Coordination Centre (I4C) Established to handle cybercrimes in a coordinated manner.
 - $\circ\,$ Financial assistance provided to States/UTs under the Cyber Crime Prevention against Women and Children Scheme for:
 - $\circ\,$ Setting up cyber for ensic-cum-training labs.
- Training law enforcement personnel, public prosecutors, and judicial officers.
- Websites containing *child sexual abuse material (CSAM)* blocked based on Interpol lists received through the Central Bureau of Investigation (CBI).
- Internet Service Providers (ISPs) directed to implement the *Internet Watch Foundation* (*UK*) & *Project Arachnid (Canada)* lists to block CSAM websites dynamically.
- Department of Telecommunications (DoT) instructed ISPs to
 - $\circ\,$ Spread awareness on parental control filters.
 - Block certain websites containing CSAM.
- Cybercrime awareness initiatives by the Ministry of Home Affairs (MHA)

- Twitter handle *(@cyberDost)* for spreading awareness.
- $\circ\,$ Radio campaigns.
- Handbook for Adolescents/Students on cyber safety.
- MoU signed between National Crime Records Bureau (India) & National Center for Missing & Exploited Children (USA) to share Tipline reports on child sexual exploitation and explicit online content with States/UTs for further action.

Centre Government Guidelines

Why in News?

A Bill for regulating coaching centres was tabled in the Rajasthan Legislative Assembly recently.

- New coaching centre bill of Rajasthan Aim It would <u>curb the</u> <u>commercialization of coaching institutes</u> and ensure that they operate within a framework prioritizing the well-being and success of students.
- It seeks to mandate *minimum quality standards, the registration of coaching centres, and psychological counselling for students.*

Central government's January 2024 guidelines	Rajasthan Bill's Key provisions
• Only students who are <u>16</u> years of age or have completed secondary school examinations can be enrolled in coaching centres.	• It has no mention of the age criteria.
• It mandated biometric attendance through face recognition technology.	• The Bill has no such provision for attendance.
• Coaching centres shall abide by the orders issued by the state government regarding national holidays, local holidays as declared by the District Collector and festivals.	• Centres should try to customize leaves to coincide with festivals, it omits mention of national and local holidays.
• Coaching centres shall not discriminate against any applicant/ student on the basis of religion, race, caste, sex, place of birth, descent etc. during the admission and teaching process.	• No mention of such provision.

 Centres may also make special provisions to encourage greater representation of students from vulnerable communities, including female students and differently abled students. The centre's building and surrounding premises should comply with the <u>Rights of</u> <u>Persons with Disabilities Act, 2016.</u> 	• No mention of such provision.
 It regulated the coaching centres by proposing A penalty of Rs.25,000 for the first violation of provisions and Rs.1 lakh for a second violation, followed by cancellation of registration for subsequent violation(s). 	• It sets the first fine at <u>Rs.2 lakh and Rs.5</u> <u>lakh</u> for the second offence, followed by cancellation of the centre's registration.

Dog-faced Water Snake (Cerberus Rynchops)

Why in News?

Herpetologists recently sighted the dog-faced water snake for the first time in the floodplains at Garemara in western Assam's Nalbari district.

- It is a rear-fanged, mildly venomous, and semi-aquatic snake.
- It is also known as the *South Asian bockadam*.
- **Appearance** Mottled grey and black colour.
- It is well *adapted to brackish water*, due to their aquatic habitat they have nostrils placed higher upon their snout giving them a dog-like appearance.
- They have salt glands below upper lip that discard excess salt acquired from the brackish water they consume.
- Size Grow up to one metre.
- Diet It is known to hunt for fish and crustaceans in shallow waters, using a <u>sit-and-</u> <u>wait predatory strategy</u>.
- **Habitat** Predominantly associated with coastal ecosystems, inhabiting mangroves, coastal mudflats, and estuarine habitats, Inland records of the species are rare.
- **Distribution** Across South, Southeast Asia, and parts of Australia002E
 - Indian coastal regions in Gujarat, Maharashtra, Kerala, Odisha, Tamil Nadu, Telangana, and the Andaman and Nicobar Islands.
- Breeding Viviparous Give birth to young ones.
- Conservation Status
 - $\circ~IUCN$ Least Concern.
- Threats
 - Loss of Mangrove Habitats

• Entanglement in fishing nets.

A Recent Study on Inflation in India

Why in News?

A recent report of SBI shows that the migration of labour from low-income states to high income states in search of employment opportunities is resulting in higher inflation in high income States in the South such as Kerala and Tamil Nadu.

- State-wise analysis High-inflation states Among all 35 states/UTs during the period FY13 and FY25 <u>Tamil Nadu inflation</u> is higher than all India inflation for <u>9</u> <u>years</u> out of the last 13 years.
- Among the States, *Kerala* clocked the highest inflation rate of <u>7.3% in Feb</u>, followed by Chhattisgarh 4.9%.
- Low-inflation states- Gujarat and Punjab has lower inflation than all India inflation for 9 years from the last 13 years.
- Northeast and Western regions have had lowest inflation against higher inflationary trends displayed by Southern and Eastern region.
- The region wise analysis of retail prices shows that southern states display <u>a higher</u> <u>trend in prices</u> for items like vegetables, cereals and most of the pulses.
- Primary trends suggest higher taxes levied on petrol/diesel, liquor, as also registration charges for automobiles and flats by the Southern states could be the driver of higher inflations.
- Going by the share of sales tax collection by states, Southern states hold the highest share, followed by Northern region.
- India's Consumer Price Index (CPI) inflation moderated to 7-month low in Feb'25 due to easing in food and vegetable prices, inflation in bigger states continued to outstrip the all-India inflation rate of the same month.
- **Higher Rural inflation** There are 9 States among major states, where inflation in rural areas is higher than the all-India rural inflation. Similarly, there are 8 States where urban inflation is higher than all India urban inflation.
 - $\circ\,$ **Reason-** Higher food prices and the rural basket of food items weight is higher than the urban weights.
- **Compound Annual Growth Rate (CAGR)** High income states have an average food inflation CAGR% of 5.26%, above national level CAGR% of 5.18 from FY14.
- Middle income group have an average CAGR% of 5.03% and lower-income group's average CAGR is at 4.95% during the same period.
- This shows the purchasing power of higher income groups has higher inflation.

SC's Recent Question on Food Security

Why is in News?

The Supreme Court recently said states showed a high per capita growth when asked to highlight the development index but claimed 75% of their population was below poverty line when it came to subsidies.

The Indian government uses Below Poverty Line (BPL) to identify and target assistance to those with incomes below a specific threshold, considered to be living in poverty.

- **Questions of Supreme Court** The SC asked about the contradicting behavior of states claiming high per capita income while having a significant population below the poverty line.
- The apex court asked whether the subsidized ration system, meant to provide food security to the deserving poor, was merely a ploy by governments to garner popularity.
- The court said corruption and mismanagement of the Public Distribution System must not be a ground to discourage its implementation.
- The court was hearing petitions seeking ration cards for migrant workers to ensure food security.
- Legal provisions The court said the poor have a right to access <u>at least 2 square</u> <u>meals a day</u> in terms of their fundamental right to life under <u>Article 21</u> of the Constitution.
- **Central government's clarification** Union government was duty-bound under the National Food Security Act to provide food grains.
- She said the coverage under the Act was **81.35%**. There was additional coverage for 11 crore people under the Anganwadi scheme, and further coverage for another 22-crore people.
- **Challenges** The Supreme Court, in an earlier hearing, had taken strong exception to the delays in the implementation of its April 2023 order to provide ration cards to about 8 crore migrant workers registered on the <u>e-Shram portal</u> but not covered under the National Food Security Act.
- The court was then informed that the portal had 28.6 crore registrants. Of this, 20.63 crore were registered on ration card data.
- SC had argued that there could be more than 10 crore workers left outside the protective umbrella of the Food Safety Act as the statistics were <u>based on the 2011</u> <u>census.</u>
- The population would have increased since then. The court had underscored the duty of a welfare state to include each and every migrant worker on the ration card roll expeditiously.
