# What is the need for this new type of banks?

 $n\n$ 

\n

\n

- The Indian banking system has significantly high percentage of non-performing assets (NPAs).
- Recently, the RBI also identified 12 insolvent accounts, which are responsible for 25 per cent of the NPAs in the Indian banking system.
- Due to the ongoing NPA issues, commercial banks are already wary to take further long-term exposures, thus creating a critical funding gap for huge projects.

\n

## How this banks are designed?

 $n\n$ 

\n

- In the long term, these banks are funded appropriately to the risk in their assets.

\n

• The promoter group for WLTF banks has deep expertise in appraising long-term credits and tackling associated challenges.
