

# Year End Review 2018 - Ministry of Agriculture, Cooperation and Farmers Welfare

Major highlights of the schemes, initiatives and activities of the Ministry of Agriculture, Cooperation and Farmers Welfare during the year 2018

 $n\n$ 

#### **Production Scenario**

 $n\n$ 

\n

• **Overall** - The Department of Agriculture, Cooperation & Farmers Welfare (DAC&FW) fixes target for the production of foodgrains in the country annually.

۱n

- It has been fixed at 290.25 million tonnes for the year 2018-19.
- The country made a record foodgrains production of an estimated 284.83 million tonnes (4th Advance Estimates) for 2017-18.
- As per India Meteorological Department (IMD), the rainfall in the country was 'normal' during South-West monsoon season.
- **Rabi** The total <u>Rabi foodgrain production</u> is around 140 million tonnes, higher by around 7.3 million tonnes than during 2016-17.
- It is also higher by around 13.5 million tonnes than the previous five years' (2012-13 to 2016-17) average production of foodgrain.  $\$
- Total <u>Rabi Rice and Wheat</u> Productions have <u>increased</u>, compared to 2016-17 production as well as the last five years' average.
- Rabi Nutri/Coarse Cereals, Rabi Pulses, Rabi Oilseeds also registered growth in production during 2017-18, with only marginal growth for oilseeds.
- **Kharif** The production of <u>foodgrains</u> during <u>Kharif 2018</u> has been estimated at 141.59 million tonnes, <u>higher</u> by 0.86 million tonnes.
- Further, it is 11.94 million tonnes more than the average production of five

years (2012-13 to 2016-17).

 $\bullet$  Total production of Kharif rice was <u>higher</u> than the last year's production and over the last five years' average.

\n

- The total production of <u>Nutri/coarse cereals</u> has <u>decreased</u> as compared to 2017-18 but production of <u>Maize</u> is expected to be <u>higher</u>.
- The total production of <u>Kharif pulses</u> was <u>lower</u> by 0.12 million tonnes than the last year's production, but was more than the five years' average.
- <u>Kharif oilseeds</u> and <u>Sugarcane</u> recorded an <u>increase</u> in total production than last year and the five years' average.

 $n\n$ 

## **Doubling of Farmers' Income**

 $n\n$ 

۱n

• The Government has set a target of doubling farmers' income by the year 2022.

\n

- An Inter-Ministerial Committee has been constructed to examine the issues in this regard and recommend a strategy.
- The committee has identified <u>seven sources of income growth</u> which are:

 $n\n$ 

\n

1. improvement in crop productivity

2. improvement in livestock productivity

- 3. resource use efficiency or savings in the cost of production
- 4. increase in the cropping intensity
- 5. diversification towards high value crops
- 6. improvement in real prices received by farmers
- 7. shift from farm to non-farm occupations  $\n$

\n

• The committee is also looking into the investments in and for agriculture including increasing public investments for agriculture-rural roads, rural electricity, irrigation, etc.

\n

• It is also looking into the need for policy support to enable investments by corporate sector in agriculture.

۱n

- $\bullet$  Government is reorienting the agriculture sector by focusing on an <code>incomecenteredness</code>, beyond the focus on production targets.
- $\bullet$  The various initiatives at this end include the following:

 $n\n$ 

۱n

i. <u>market reforms</u> through State Governments by amending the agriculture marketing regime

\n

ii. promulgation of  $\underline{\text{Model Contract Farming Act}}$  to encourage contract farming through the State Governments

۱'n

- iii. 22,000 <u>Gramin Haats</u> are to be upgraded to work as centres of aggregation and for direct purchase of agricultural commodities from the farmers  $\n$
- $\ensuremath{\mathrm{iv}}.$  launch of  $\underline{\mathrm{eNAM}}$  initiative to provide farmers an electronic online trading platform

۱n

- v. distribution of Soil Health Cards to farmers to optimise the use of fertilizers  $\n$
- ${\rm vi.}$  " $\underline{\rm Per\ drop\ more\ crop}$  " initiative to encourage drip/sprinkler irrigation for optimal utilization of water

- vii. "Paramparagat Krishi Vikas Yojana (PKVY)" to promote organic farming; North-East is being developed as organic hub
- viii. launch of revised farmer friendly "<u>Pradhan Mantri Fasal Bima Yojana</u> (PMFBY)"; covers various types of risks from pre-sowing to post harvest, provision for nominal premium
  - ix. "<u>Har Medh Par Ped</u>" to promote agro forestry for supplementing farm income; increase risk management and climate resilient agriculture \n

x. amendment of <u>Indian Forest Act</u>, <u>1927</u> to exclude bamboo from the definition of 'trees'; as a corollary, the restructured <u>National Bamboo Mission</u> was launched

\n

- xi. <u>PM-Asha scheme</u> to ensure MSP to farmers for oilseeds, pulses and copra \n
- xii. government has approved the <u>increase in MSPs</u> for all <u>Kharif</u> & <u>Rabi</u> crops for 2018-19 season

\n

- xiii. <u>Bee keeping</u> has been promoted under <u>Mission for Integrated Development</u> <u>of Horticulture</u> (MIDH) as an additional source of income of farmers
- xiv. <u>Rashtriya Gokul Mission</u> to enhance milk production and productivity of bovines, to make milk production more remunerative
- xv. National Livestock Mission to increase productivity and genetic improvement of livestock

\n

- xvii. a revised strategy document for 2018-2030 for the <u>National Mission for Sustainable Agriculture</u> (NMSA) [One of the 8 Missions in PM's National Action Plan on Climate Change]

 $n\n$ 

## **Key Schemes, Initiatives and Activities**

 $n\n$ 

Higher Production through Productivity Gains

 $n\n$ 

# **National Food Security Mission (NFSM)**

 $n\n$ 

\n

• NFSM programme is being implemented across the country for increasing the production and productivity of foodgrain crops (rice, wheat, pulses, coarse cereals & nutri-cereals)

\n

• It is done through -

 $n\n$ 

\n

i. area expansion and productivity enhancement

- ii. restoring soil fertility and productivity at the individual farm level
- iii. enhancing farm level economy to restore confidence amongst the farmers  $\n$

 $n\n$ 

\n

- As per the target, NFSM has achieved the bumper production of rice, wheat, pulses and nutri-cum-coarse cereals, during 2017-18.
- The total foodgrains production achieved during 2017-18 is around 284 million tonnes 3.5% increase against the last year.
- Various initiatives were taken for increasing production and productivity of Pulses, Nutri-Cereals, etc. including -

 $n\n$ 

\n

i. Breeder Seed production of pulses and nutri-cereals

\n

ii. Creation of seed hubs

۱n

iii. Certified seed production

۱n

iv. Creating buffer stock to control price fluctuation

 $n\n$ 

## Krishi Unnati Mela, 2018

 $n\n$ 

- A National level 3rd Krishi Unnati Mela was organized by DAC&FW.
- The objective was to create widespread awareness about the latest agricultural technological developments and receive feedback from the agricultural community.
- Ways to enhance farmer's income through theme pavilions like micro

irrigation, neem-coated urea, effectiveness of crop insurance scheme, etc were showcased in the mela.

\n

 $n\n$ 

### **Mahila Kisan Diwas**

 $n\n$ 

\n

• Mahila Kisan Diwas was organised on October 14-15, 2018 with participation of various stakeholders.

\n

• It included Women farmers, NGOs, Women Entrepreneurs, Academia, Researchers/Scientists, Farmer Organisations, Banking Sector Representatives, Industry, etc.

\n

• The focus was to learn and address issues related to women farmers in agriculture and allied sectors, access to institutional credit and microfinancing, etc.

\n

 $n\n$ 

# **Mission for Integrated Development of Horticulture (MIDH)**

 $n\n$ 

\n

 Additional areas were covered under the mission for identified horticulture crops and organic farming.

۱'n

• Besides, Integrated Pests/Nutrient Management, Horticulture Mechanization, Beekeeping initiatives, Market and Management Infrastructures facilitation, and training of farmers were taken up.

 $n\n$ 

# **Information Technology**

 $n\n$ 

۱n

 $\bullet$  Number of farmers registered on M-kisan portal of DAC&FW for receiving agro-advisories has increased.

\n

• Downloads of Kisan Suvidha app has also increased; 4 new services were

added to the app, raising the services available to 10.  $\n$ 

 $n\$ 

#### **RKVY-RAFTAAR**

 $n\n$ 

\n

• Rashtriya Krishi Vikas Yojna (RKVY) is aimed at strengthening infrastructure in agriculture and allied areas.

\n

• A new component under the revamped scheme RKVY-RAFTAAR (Remunerative Approaches for Agriculture and Allied sector Rejuvenation) has been launched in 2018-19.

\n

 This is to promote agri-entrepreneurship and agribusiness by providing financial support and nurturing the incubation ecosystem (RKVY — RAFTAR Agribusiness Incubators (RABIs)).

\n

 $n\n$ 

 $n\n$ 

#### Reduction in cost of cultivation

 $n\n$ 

## Agricultural Mechanization-Crop Residue Management Scheme

 $n\n$ 

\n

- A new Central Sector Scheme on 'Promotion of Agricultural Mechanization for In-Situ Management of Crop Residue' has been introduced.
- This is for the States of Punjab, Haryana, Uttar Pradesh and NCT of Delhi for the period from 2018-19 to 2019-20.
- The Scheme's components (100% Central Share) include \n

 $n\$ 

\n

i. financial assistance to groups and organisations for establishing Farm

Machinery Banks for Custom Hiring of in-situ crop residue management machinery

\n

- ii. financial assistance to individual farmers for Procurement of Agriculture Machinery and Equipment for in-situ crop residue management
- iii. financial assistance to institutions for Information, Education and Communication (IEC) activities for awareness on in-situ crop residue management

\n

 $n\n$ 

## **Soil Health Management**

 $n\n$ 

\n

• Soil Health Management (SHM) is one of the components under National Mission for Sustainable Agriculture (NMSA).

\n

• SHM aims at

\n

 $n\n$ 

۱n

i. promoting Integrated Nutrient Management (INM) through judicious use of chemical fertilizers

\n

- ii. strengthening of soil and fertilizer testing facilities to provide soil test-based recommendations to farmers for improving soil fertility  $\ensuremath{\backslash n}$
- iii. ensuring quality control requirements of fertilizers, bio-fertilizers and organic fertilizers under Fertilizer Control Order, 1985
- iv. upgradation of skill and knowledge of soil testing laboratory staff, extension staff and farmers through training and demonstrations
- v. promoting organic farming practices, etc

 $n\n$ 

\n

• Funds are released to States for setting up Static, Mobile and Village Soil Testing Laboratories and Fertilizer Quality Control Labs.

۱n

#### Soil Health Card Scheme

 $n\n$ 

\n

- $\bullet$  Soil Health Card Scheme is under implementation since 2015 to provide Soil Health Card to all farmers in the country.  $\$
- It provides information to farmers on soil nutrient status of their soil and recommendation on appropriate dosage of nutrient to be applied.
- $\bullet$  Soil Health card will be issued every 2 years for all land holdings in the country.  $\ensuremath{^{\text{h}}}$

 $n\n$ 

## Parampragat Krishi Vikas Yojana (PKVY)

 $n\n$ 

\n

- PKVY, to promote organic farming, is the first comprehensive scheme launched as a Centrally Sponsored Programme (CSP) from 2015-17, which now has been revised for next 3 years.
- Funds are given as incentives to farmers for organic conversion, organic inputs, on-farm inputs, production infrastructure, etc.
- ullet The scheme is implemented with  $\n$

 $n\n$ 

\n

- 1. 90:10 (GoI: State Govt.) funding pattern in 8 NE states and 3 hilly states of J&K, Himachal Pradesh and Uttarakhand
- 2. 100% central funding in Union Territory
- 3. 60:40 funding pattern in remaining states of the country  $\n$

 $n\n$ 

# Mission Organic Value Chain Development for North Eastern Region (MOVCDNER)

\n

- MOVCDNER (2015-16 to 2017-18) is a Central Sector Scheme that seeks to capitalise on the organic farming potential of North-East India.
- It covers the states of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura.
- The scheme aims at development of certified organic production in a value chain mode to link growers with consumers.
- It supports the development of entire value chain, covering Value Chain Production, Processing, Marketing and Support Agencies.

 $n\n$ 

## Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) -Per Drop More Crop

 $n\n$ 

\n

• Per Drop More Crop component of PMKSY is operational from 2015-16, and mainly focuses on water use efficiency at farm level through precision/micro irrigation.

\n

• It promotes

 $n\n$ 

۱n

\n

- i. precision irrigation (Drip and Sprinkler Irrigation System)
- ii. better on-farm water management practices to optimize the use of available water resources
- iii. micro level water storage or water conservation/management activities as Other Interventions(OI) to supplement source creation  $\n$

 $n\n$ 

# **Micro Irrigation Fund**

 $n\n$ 

\n

• A dedicated fund in NABARD titled "Micro Irrigation Fund" (MIF) with initial

corpus of Rs.5000 crores was announced in Union Budget 2017-18.

 The main objective is to facilitate the States in mobilizing the resources for expanding coverage of Micro Irrigation by taking up special and innovative projects.

 $n\n$ 

### Rainfed Area Development (RAD) Programme

 $n\n$ 

\n

- RAD programme under National Mission for Sustainable Agriculture (NMSA) focuses on Integrated Farming System (IFS).
- $\bullet$  It aims at enhancing productivity and minimizing risks associated with climatic variability.  $\ensuremath{\backslash n}$
- Crops/cropping system is integrated with activities like horticulture, livestock, fishery, agro-forestry, apiculture etc.

 $n\n$
