

On Labour force participation of India
Women dropping steadily and urgent
policy Actions are required. Analyses (2001)

⇒ Labour force participation of India are
women and men dropping in decade through.
recently Government initiated several schemes
and urban development schemes and programs
to improve condition. main features decreases
case below

- * education awareness.
- * In working condition of women's order problems.
- * Women's Holiday to work. All days worked.
- * less salary to give women as compare
to men.
- * New level Government policies..
- * Women's core health problem and overloaded
working condition.

Some major problem not concern to Government
in effectively and Accountability problems.

The improve working condition of women's to
Government given policies core

- self Help Group implement effectively
to e-Governance to view schemes.

- Indian constitution article 42 provides to give a woman to delivery holidays.
- PM - Matru Vandana Yojan starts to improve women condition.
- Highly nutritious food to given pregnant women.

Therefore women working condition are mainly inequality in industry. men are highly improve wages as compare to women. main program initiated is MGNREGS (Mahatma Gandhi national rural employment guarantee yojan). Then security problem are women is child marriage, social discrimination, women foeticide, and low level protection to women.

Some laws are ^{improve} effectively and in certain areas highly as compare to general areas.

However women empowerment is depend to all problems and labour force participation improve in future to slowly implement program and awareness programs. Highly level given to wages, well nutrition food given in industrial workers all are main provided to improve participation of women.
