

- 3 Proposals to set up CoE in AI will foster interdisciplinary
3 research. Explain in the context of Budget.

The budget 2023-24 expressed to
set up three centres of excellence in
Artificial Intelligence in top educational
institutions to ~~implement~~ make AI in
India and make AI work in India

India and Artificial intelligence

The artificial intelligence market is
about \$650 million and the compounded
annual growth rate is 33% for the
technology. India supports AI through
events such as the RAISE to showcase
the startups using artificial intelligence

Promotes interdisciplinary research

The artificial intelligence can
be used in areas

Health: to produce genome sequencing

and measure the drug delivery and predict the disease outbreak ~~in~~ ⁱⁿ ~~repeatably~~ ^{repeatably}.

Education promotes remote learning even from secluded areas and can help ~~to~~ ^{to} reduce the crop out ~~reaches~~ ^{reaches}.

Sustainable cities - the artificial intelligence can help city planning to prevent traffic congestion and urban flooding.

Future

With digital data protection, bill to be laid out the ~~entire~~ ^{entire} for excellence as the right step.

The government plans to build anonymized non personal data

for ~~understanding~~ ^{understanding} ~~on~~ ^{on} ~~the~~ ^{the} artificial intelligence projects.
