- ① What do you know about the green credit programme?
② Discuss its role in incentivising eco-friendly actions among industries and individuals (250W)

Green Credit Programme is an initiative of union government to make individuals and companies participate in planting trees, storing the environment etc. without any push factor.

about
green
Credit
Programme

① 8 initiatives/conservations are noted under this programme
eg: Mangrove conservation, planting trees, water bodies etc..

② Green credits will be evaluated based on size, quality etc..

③ Have to apply on website to get awarded green credits, where authorities will check and finalise

④ Can use their green credits for economic purpose
eg: The amount on plants related

Role in incentivising eco-friendly actions among industries and individuals.

- ① Encourage the voluntary plantation of Individual and Industries
- ② Not crediting for under law initiatives help to maintain balance in giving credits
eg: for the land industries occupiers have to plant certain number of plants is the law, for that no credits will be awarded.
- ③ improve the clean water and water in the soci with the help of people
- ④ mangrove conservation, which is the major task for the government will be little broader
eg: Goa Mangrove Forest Initiative.
- ⑤ Not associated with carbon credits,
It started as individual project

problems associated with implementation

- ① Not easy to make people participate
- ② No awareness, need to come up with better awareness programmes
- ③ Environmental Concerned people anyways love the nature, and non concerned will anyways destroy it
- ④ More value to the land than the credits value
- ⑤ proper guidelines and values have to be given for the green credits

Conclusion
It is the time when people have to realise the real need of good environment by looking at the example of present climatic condition. It is not just government that should push the people but themselves need to understand its value.
