UPSC

Answer Questions in NOT MORE THAN the Word Limit specified for each in the Parenthesis.
(Specimen Answer Booklet - For Practice Purpose Only)

उम्मीदवारों को इस हशिप में नहीं लिखना चाहिए
Candidates must not write on this margin

- ① Antimicrobial resistance is a symptom when virus, fungi, bacteria etc will not be responding to the medicine. This will lead to spread of disease. [Tuff Curing methods]
eg: if fever virus gets immersed and adopted to the medicine in such a way that the virus will not get effect then it will start spreading and leads to serious issues.

in better manner we can also consider it in other way that life of these virus | bacteria etc.. will get increased.

Effect of
Antimicrobial
resistance

- ① Higher scope of pandemics and isolations
- ② leads to economical imbalance
- ③ Constant vaccine inversion process and vaccines and medicine becomes costlier affair.

UPSC

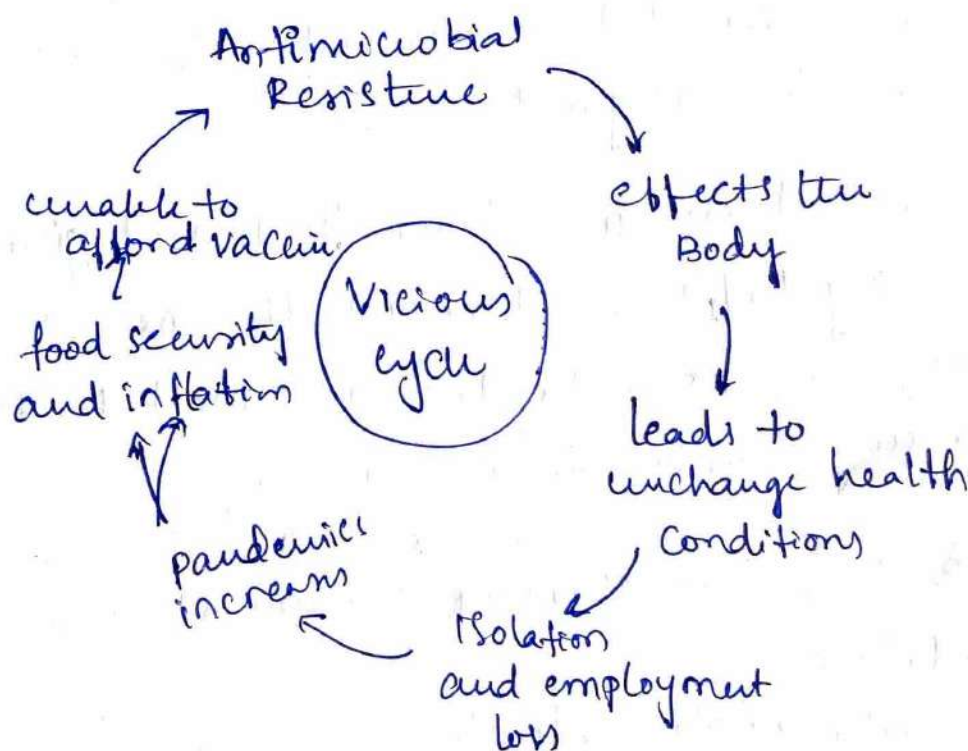

Answer Questions in NOT MORE THAN the Word Limit specified for each in the Parenthesis.

There doesn't have short term cure but
this can always be mitigated

- ① Proper sanitation and Balanced food
diet to improve immunity system
- ② Conscious at public places
- ③ as our Indian economy is going to witness
higher older population in the near future
It is recommended to come out with better
Schemes to Safeguard people
- ④ Control in green house effect and global
warming helps to decrease the new disease
emergence. Ex: Antarctica ice melt leads
to many zombie disease release
- ⑤ Better house planning to come out with
sanitation
Ex: indus valley civilization sanitation house
building methods

The near future is full of war & struggles
in terms of pandemics and diseases which is
shown as start with covid. prevention is always
better than cure and people with awareness will make it
