# UPSC

Answer Questions in NOT MORE THAN the Word Limit specified for each in the Parenthesis.  
Content of the Question is more important than length.  
( Specimen Answer Booklet - For Practice Purpose Only)

इस हॉर में नहीं लिखना चाहिए  
Candidates must not write on this margin

Q The aspect of health must emphasize more on formulating better air pollution policy. Do you agree with this view? Comment.

↳ The worsening winter air quality in North India again brought into public focus the harmful effects of air pollution on our health.

↳ Lancet Report

↳ In India 2019, 17.8% of all deaths and 11.5% of respiratory cardiovascular.

↳ Health

↳ The primacy of protecting public health is laid out in the statement of objects and reasons of India's key environmental laws.

↳ Need for an Air Pollution Policymaking.

↳ The combination of isolated nature of policy making and an insufficient understanding of health among policymakers.

↳ Air pollution policy is created and implemented in a vacuum.

↳ Recent papers by centre for policy Research also reveal that health sector representatives comprise less than 5% of membership of state Pollution control Boards.

## ↳ Policy Measures

- ↳ Ministry of Health's steering Committee on Air Pollution - exposure centered view to Policy.
- ↳ Reducing Exposure and Providing Health Benefits.
- ↳ India is in the process of revising National ambient air quality standards (NAAQS) remained a largely opaque process over the years.
- ↳ Health ministry should focus on steering committee convened experts from Environment, Energy, Transport etc. to develop focus on Health benefits.
- ↳ A sustainable and effective interventions is needed to control air quality actions those sectors that cause Health Burden.

## ↳ Forward Approach.

To fight against air pollution, the contemporaneous approach is to taken to tackle the issue, in the aspect of Health.
