In what ways can India contribute to the peace efforts in Russia-Ukraine war? Discuss.

The Ukraine Russia war costed more than 6000 lives and \$2.8 trillion to the global economy. India can contribute to the peace efforts as we are revered by the world.

India's stand

We abstained resolutions against Russia at the United Nations citing dialogue and diplomacy as the only way forward and not outright sanctions. In the Shanghai Co-operation Organisation summit too we iterated that today's era is not the era of war.

India had also called for independent inquiry into the human rights violations in Ukraine committed by the aggressive forces.

India's role in bringing peace

We today as a country follow multi alignment a shift from non-alignment.

Leadership It is fortunate that we will be leading G-20, Shanghai Co-operation Organisation and UN Security Council in the year 2023, in all which Russia is a member.

The core rooms for talks to bring about a cease fire which was initiated by France along with India had it got stalled.

Multilateral formations such as India - Israel - UAE front can influence Russia to scale down conflict as the fuel prices are on the rise.

Providing HADR Humanitarian assistance and disaster relief to Ukraine can help the ill effects caused by the war on Ukraine.

The efforts cannot be done in silos, it must involve talks in Traeh-1 and Traeh-2 diplomacy.

If the peace making succeeds it could bring a prominent place for India in global order i.e., a permanent seat at the Security Council.
