

The recent announcement of Ministry of Home Affairs of extending the jurisdiction of BSF from 15 km to 50 km depth along Assam, Punjab & West Bengal is stating the or deep bringing out the importance of cooperative federalism which needs to the motto even it is of 'National Security'!

EXTENSION OF BSF JURISDICTION:-

of BSF:- BSF are given the power of search, seizure & arrest in respect of Passport Act 1967.

REINFORCES THE CAPABILITIES OF STATE

PERSONNEL:-

- (*) Growing terrorism, along the porous borders of West Bengal, Assam, Punjab is more.
- * Latest attacks of weapons thrown down from Dargah in Punjab, B's insurgency, ethnic insurgency, chaos & violence in Assam
- * Heads witnessing more numbers

of human, drug trafficking along
West Bengal. Most recent this
Recently 3000 kg of Heroin trafficking
from Afghanistan, Taliban's government
in Afghanistan etc.

This altogether gives out to be
ideal & opportunistic places for
the hotbeds for the ~~prosecution~~ ^{terrorism}
& militants which is nearly a
National Security.

- > \$ Than being ~~critic~~ hypocrite
should think about the reality
- > The BSF extension of power aren't
are just strengthening the State
personnel
- > \$ When a Security threat occurs State
personnel reach Central Armed Forces
force - When that is considered
to be a normalcy & cooperative
federalism. Why this also ~~can't~~
be viewed in that way.
- > States power aren't curtailed nor
reduced. \$ The BSF Act, under
Section 139 is enough justification
for securing state
- > The BSF in any case would be
handing over the accused together
to the local police within 24 hours

CONCLUSION:- It is mere unlogical to say by extending BSF production they if affects the border security duties & its interference into State federalism.

State rather being hypocritic, ^{in fact} should encourage Cooperative Federalism with growing exigencies along its borders. It has to be seen beyond & centre & State politics when it come to National Security.
