

29 $\leq$ elaborate on laws that cover doping in India? Discuss its loopholes & suggest measures to plug it.

India ranked second in the positive doping cases by nations in the Operation Reforge conducted by World Anti Doping agency. Doping is the intake of performance enhancing substances to get undue advantage in the competition.

Laws governing doping

Doping in sports is mainly governed by the National Anti-Doping act. The act empowers the NADA - National anti doping agency to implement, plan and monitor the anti doping activities giving it a statutory status.

The act establishes Drug testing labs to bring in a culture of clean sports.

happholes with the act.

The athletes ~~are~~ go food and drug regime are not monitored by the WADA. For example in the Nadia (Vs) Jyotsang Pansara case banned substance was found in cosmetics.

Common drugs used ~~for~~ ^{as} pain killers and cough syrups contain banned substance such as terbutaline.

WADA guidelines are mostly in English and most players are from several Indian

Reforms needed

List prohibited items by World anti doping agency must be listed by Nada in regional languages. separate provisions for murders dealing with doping is crucial. Exempting certain chemicals from tests can clear ambiguity.

India aspires to be a sports capital with correct reforms on doping can put our athletes in elite podiums of the world.
