The PM's Plan to create a million government jobs in mission mode over 18 months need to be carefully thought through and implemented. Discuss. (200 words)

According to PLFS data, the employment rate has reduced marginally to 4.2%. Contrary to previous estimates.

But according to Central Government Vacancy and recruitment ^{figure was} showing negative figure i.e. More Vacancy and less recruitment. It was attributed to Covid 19 disruption during the last 2 years.

PM's Initiative:

* PM's Plan to create a million Government jobs is a laudable one over the time frame of 18 months which was given to least the recruitment process.

PM's Initiative Challenges:

- * Covid 19 is not completely eradicated.
- * The time frame restricts the agencies

to recruit skilled manpower, because of limited time.

* More false and fraud recruitment may happen.

Ex: Recently in Uttarakhand, for Railway exam the question papers were leaked and students who supposed to write the exams were protested to stop the exam.

Initiative Prospects:

* Under PM's initiative, there was a scheme called Agri Path scheme to recruit Agriivers.

Under this scheme young talented youths aged 17 to 21 and who were nationally believe will be recruited.

More skills and degree program was envisioned under this scheme.

Thus PM's initiative must be carefully implemented using online portal recruitments like Agriiver scheme and by promoting the digital portals.
