Q.1

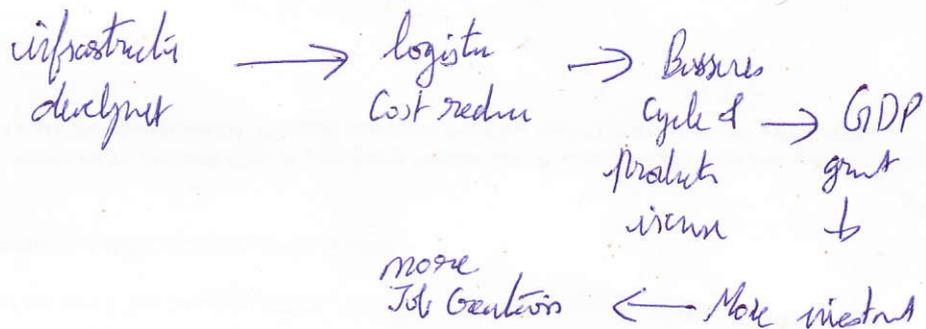

With the Gati Shakti National Master Plan, India's economic growth can find renewed momentum through major infrastructure upgrades. Explain (200 Words)

(Please don't write anything in this space)

India has an ambitious "5 trillion" dollar economy vision. For which the PM's office focus much on the infrastructure project. Gati Shakti National Master Plan is one such focus during past pandemic era.

(Please don't write anything in this space)

Gati Shakti National Master plan aims to integrate multi-modal infrastructure projects, thereby it reduce logistic cost

With the above flow chart, one can understand that the supply chain and bottle neck can be removed. There by reducing inflation and Promote Economic growth.

## UPSC

Multimodal transport  $\rightarrow$  Post-railway  $\rightarrow$  road way - inland waterway etc. The inter connecting will also reduce the congestion of the land transport.

The National Infrastructure Pipeline, a project of Rs 111 trillion, is also subsumed into the Plan.

The delivery of oil and gas through Pipeline to region also reduce the transport charges. Connectivity is one time investment, which promotes life long investment.

The reduction in the congestion of transport lane, also reduce the pollution & fuel.

This is in line with India's vision of reducing Green house gas with Paris agreement.

It is one of the responsibilities of the Government, to remove the barriers and to improve the connectivity of business, which is the motto of Atal Shakti National Plan.
