## Govt Policies

The combined effect of Jal Jeevan and Swachh Bharat Missions are gradually improving people's well being. Elaborate (200 words)

Water is the fundamental thing in everyone's life. Without water, people well being can't <sup>be</sup> improved. The availability of water in every household is a necessity. With the arrival of new government, new policies like Jal Jeevan this has been achieved.

The need for clean environment is a fundamental right under article 21. Good surroundings and proper hygiene improves the health of people. Under Swachh Bharat, this has been taken into account.

### Jal Jeevan and Swachh Bharat Mission :

The combined effect of these missions will provide people basic facilities for their life.

Availability of clean drinking water has prevented so many water borne diseases such as Cholera, TB, etc.

In every village, the availability of drinking water is a luxury thing. But under this missions approximately  $\frac{3}{4}$ th of the villages have been covered and ensured clean and epidemic

water facilities.

### Swachh Bharat Mission in Urban life:

In rural India, the need of Good Ambience will not often arise. But in Urban India, the People are suffering from Congestion, Pollution, unsafe environment etc., the need for Good environment is dream for Urban People.

The SDC II also talks about this, i.e. Sustainable cities and Communities. Under Swachh Bharat many areas were kept free of Pollution. In several areas toilets have been constructed and this prevented open defecation.

Under this Mission, Indore city has topped in achieving the Swachh Bharat Mission.

### Missions and People well being:

- \* Clean & Safe drinking water (Sper 6)
- \* Clean & Safe environment (Sper 12)
- \* Empowerment of People (as the Communities were involved it has been empowering people)

\* Basic facilities like toilets, tap water etc,

### Conclusion :

More and More schemes like this have to be formulated by the government. The schemes must involve the Communities in implementation stage. The scheme must create fixed assets, ~~so~~ <sup>such that</sup> it will not cause the treasury of the government.
