

Department of school education
and literacy has published the
3rd edition of performance Grading
Index 2019-20 (PGI) approved by
Union education minister.

PGI is a tool to provide insight
on the status of the school
education in states & union
territories.

The Index use 4 major monitoring
parameter and 70 sub parameters

- (i) learning outcome
- (ii) access and equity
- (iii) Infrastructure & facilities
- (iv) governance and management process.

State performance

Toppers

- (i) punjab - 929
- (ii) chandigarh - 912
- (iii) Tamil Nadu - 906
- (iv) Kerala - 901
- (v) Andaman & Nicobar - 901

Bottom

- (i) Ladakh
- (ii) Meghalaya
- (iii) chhattisgarh
- (iv) Arunachal
pradesh

The Center seeks to create a resource sharing system where the score and the data of the parameters and sub parameters will be shared in public domain.

Low performing states can use the methods of the frontrunners to improve their overall performance, and to foster the spirit of competition among the students all over the nation.

As India is nearing the major share of demographic divident, the PGIL ~~can~~ data can transform the performance of schools as recognised by right to education law.
