Critically analyse the reason for riots in India and suggest measures for better riot management.

Ans India had diverse culture, religion and ethnic section of people had different interest and needs that lead to conflict and riot in India.

Reason for riot in India

communal clashes

India has diverse religion and have different rituals and ideology that come into conflict.

eg) cow is considered holy for Hindu but muslims slaughter cow for food.

Caste based conflict

India has lot of caste based hierarchy. Dominant class dominates over lower caste.

eg) Untouchable caste suppressed by upper class.

Ethnic clashes

Difference between the ethnic community in the north eastern state lead to clashes eg) conflict between mizos & kuki's.

Territorial clashes

Boundary between India and Pakistan often conflict between Indians and Pakistanis eg) Jammu & Kashmir riots.

Positive of this conflict

- 1) It push the government for consider needs of different section of people.
- 2) Made government more inclusive.
- 3) government should work on the developmental aspect of down trodden people.
- 4) make the government aware about the grievance of different section of people.

Negatives of this conflict

- 1) loss of lives and property
- 2) mob lynching

- 3) Affect the vulnerable community such as women & children.
- 4) Displacement of the people within or outside countries.
- 5) Affect the economy of the people.

Measures need to be address the riot

- 1) proper riot management need to be ensured.
- 2) Government along with community to tackle the problem.
- 3) police force are trained to negotiate with people rather than aggressive measures.
- 4) proper development need to be ensured in the hindered areas.
- 5) Government make policy in inclusion of all section of the people.

Riots are often occur in India that affect the peace and harmony in India. government should take proper measure to address this issue.
