WTO 12th ministerial conference was held in Geneva, brought some important decisions.

- The long awaited patent rights was authorised for Covid-19 vaccine productions rights by transferring technology which was demanded by middle & low income countries. This move helps ~~to~~ ~~and~~ least developed & economically back countries ~~to~~ ~~reach their~~ ~~own~~ vaccinating their country people.

- Moratorium of electronic copyrights will be continued until next meeting which will be held in next six months, this was in favour of India's demands which affects Indian market prices, as copyrights are done

- Fisheries ~~subsidies~~ subsidies are cancelled which could bring price stabilisation @ global markets.

= There should be no obstruction in Food & pulses supply which is carried out Humanitarian programme under ~~UN~~ United ~~nations~~ nations FAO.

- Fertilisers necessary for sowing season should be traded hassle free that shouldn't affect food securities.
