

Question

Government of India must ensure high quality of digital infrastructure and ease of doing business for better business creation in the country. Explain

Answer :-

Digital Infrastructure is backbone for new start-ups and for new era of Indian businesses. Digital India is programme which specifically deal with providing government services are made available to every citizens on internet and make strong digital awareness and make citizens digitally literate.

→ This same thing can be applied in Businesses and it can be improve by providing them digital infrastructure in vast manner.

→ Indian start-ups are steadily increase and it can be future of India in upcoming time but If Government provide them digital infrastructure like internet services, broadband with high internet services. It affectively worked in time bound manner.

Government Policies :-

Government already started work on ~~offer~~ provide digital infrastructure to startups and citizens.

→ Bharat net is such example by which govt. try to provide speedy internet to rural areas which is very useful to startups and businesses of rural areas.

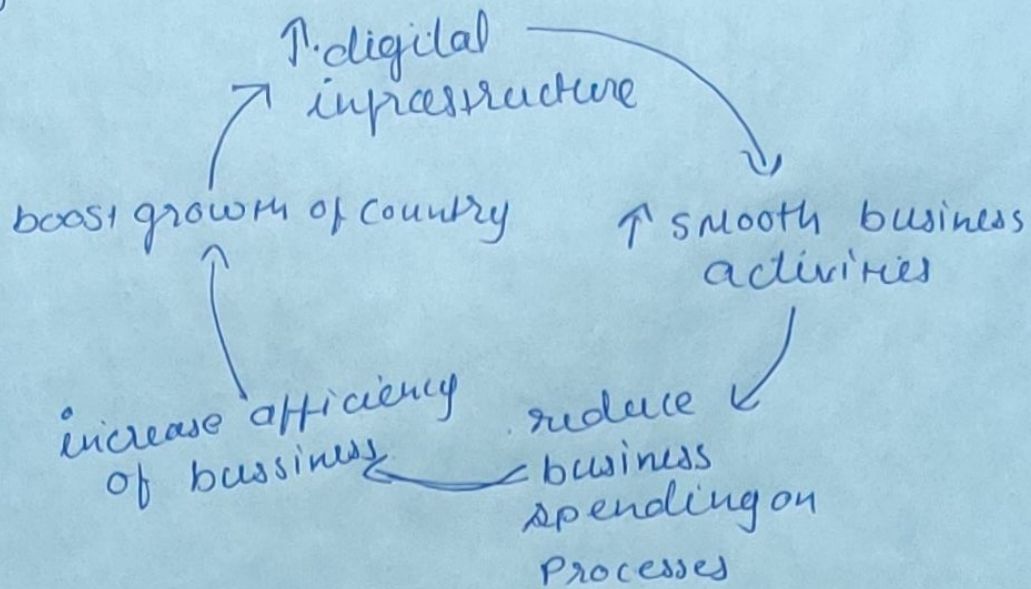

→ Digital India → Providing government services electronically.

→ cashless transactions → which can boost speed of transactions, via mobile banking.

→ These are some of the steps, ~~which~~ which provide effectiveness

to Indian businesses and startups.

→ Ease of Doing Business is most probably depends on infrastructure provided by any government which can easily boost growth of any business as well as country.

→ High quality digital infrastructure can attract FDIs in India

→ Not only existing businesses but new startups can easily get access to expand + easily.

→ Digital infrastructure can reduce more reduction of bureaucratic hurdles.

→ Easily get permissions for new initiatives

As Digital infrastructure can boost growth of India it also can prove helpful in taxation. It can make easy taxpaying systems which are more effective. And through digital taxpaying Processes, there are reduction in tax-
evasion. By making easily taxation methods.
