

Do you think that potential of e-commerce is powering the inclusive job eco-system in country? Explain

With the Dawn of the e-commerce in the Smartphone it has tapped an untold power which connects Indian Manufacturer to American customers & vice versa.

Act of E-commerce

The e-commerce acts as a intermediate to the customers & the Producers & it plays the below job of bridging the gap

→ The customer gets whatever they need in top of button

→ The producer got Model with a top of Button.

The potential of e-commerce is wide spread to all types of ~~many~~ sectors (Primary Secondary, Service)
Eg: e-Nam ↓ Amazon Urban
clap

The Job created by Q-commerce

i) I-T sector

- ~~cos~~ Designing
- Interface Designing
- Service & maintenance

ii) All manufacture

- Textile & other goods
Produced in home

ii) Improve q/g workers & raises employment in Scafo
Scafo.

with Reso as evidence. Yes, the potential of e-commerce produces an inclusive job eco-system for all primary, Secondary & tertiary Sector.
