## Government policies

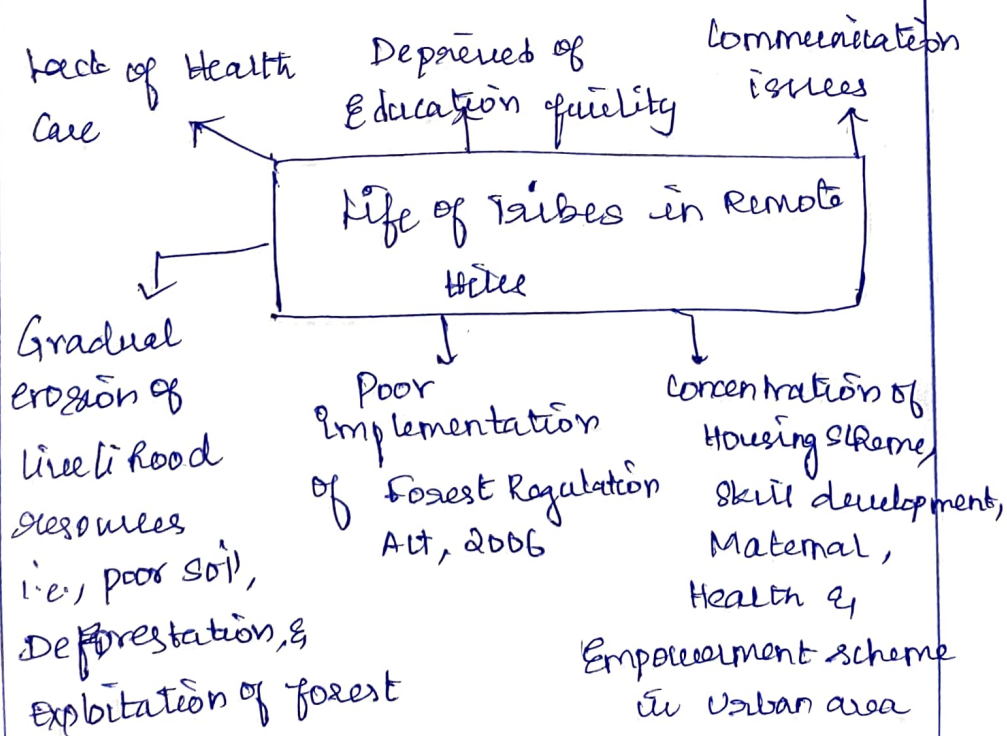

For Better quality of life, scheme designed for the tribal people need to be implemented in letter & spirit across the country.

### Tribal Community of India:

Majority of the Tribal communities were poor and landless. There were about more than 90 Particularly vulnerable Tribes resides in India depend on forest and their produce for livelihood.

### Quality of life & scheme implemented

Most of the schemes implemented to uplift the livelihood were prominent in urban area rather remote area.

## Evidence depict their life:

- Ignorance of satellite images on remote area
- Lack of transparency at taluk level and district level committees.
- Insurgence of Migrants from Bangladesh caused pathetic condition of forest dwellers
- 12 km walk for crementation in Odisha
- mass march to Delhi in 2004 from Chhattisgarh for claiming forest rights
- poor fertility of soil and increased sale of middleman (Tendu leaf) in Chhattisgarh.
- Poor irrigation facilities and migration of people to urban

## Way Ahead:

For the contemporary improvement of Remote Tribal area we need the cooperation of people, NGO and Government. If all the 3 die matches the Index on Human Development and Tribal States will be elevated gradually
