

Society (S&T)

Q2) There have been several high profile cyber attacks on enterprises boards in recent years. Discuss the steps that are required to prevent such attacks. (200 words)

Cyber attacks is most dangerous things happen in digital era, where it requires more concern & coordination for stopping them.

Cyber attack:

high profile

steps prevent

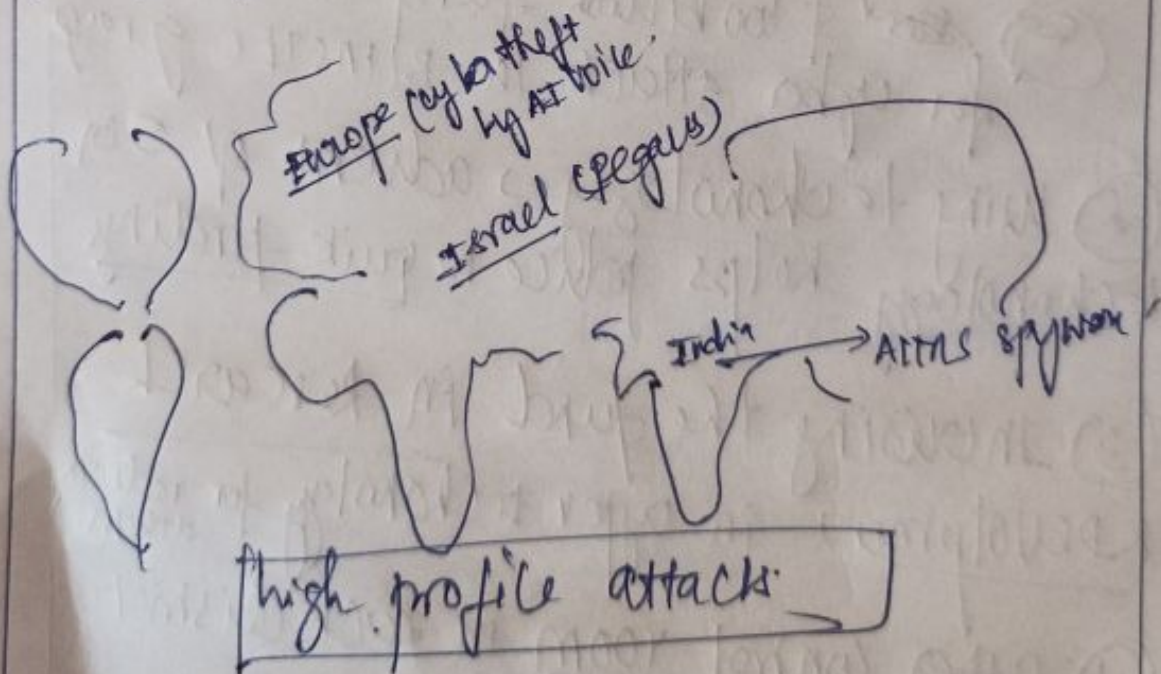

International

ISIRIES

QUAD

OTAN

High profile cyber attacks

① Recent India - AIMS spyware attack took many datas from Hospital.

⑧ Pegasus spyware - zero click attack which hacked important phone numbers.

members:
eg: Journalists are backed by
peasants

(3) Artificial fake voice attack in Europe led to loss of \$530 million

(eg) europe private company loss its value

Steps need to be taken

① International partnership like G20, BIMSTEC for Asian region to stop attacks

② ~~the~~ \$100 billion fund raised for cyber attack in BIMSTEC group

② Using technology → advent of 5G
technology helps police to quick findings

(3) Increasing the fund in Research & development in cyber technology for reducing attacks

4) Cyber control room in each district
for rural beneficiaries

Hence, by doing this India
would keep the touch with
one of sustainable goals to achieve

- 1) Jakes
- 2) IT of find T
RAD
- 3) exogenous
(nucleus)
- 4) SW + elt.
- 5) .
