

## Question

In various ways, India and Italy can act together to address the post-pandemic challenges effectively. Analyse.

## Answer

Covid-19 pandemic put many challenges in front of the world. In this crucial time nations should work together for better performance.

As great challenges open new opportunities Covid-19 pandemic also opens many ways for global collaboration in many fields such as. →

- Health → Global health
- Environment → Sustainable development
- Science → Way to fight new challenges
- Society →
- Economical → Revival of economy.

Recently Italy hosted G20 summit during the pandemic time and also plan to host COP26, Global health summit, Youth summit.

→ In collaboration with Italy India can perform effectively during this post-pandemic era.

Three pillars and priorities come out during G20 summit these are

"People, planet & prosperity"

In this context India and Italy can work together in many fields such as. Health, Noverty, Digital literacy

## ⇒ Poverty

Poverty is root problem for any nation poverty elimination in India and Italy will help to develop their economy and standard of living

- Reducing gender inequality in terms of salaries and postings.
- Increasing women participation in labour force.

## ⇒ Environment

- Implications of Paris Agreement and focus on reimpose it on nations
- Try to achieving sustainable development goals.
- stress on environment policies, deforestation biodiversity loss and reduce urban pollution.

## ⇒ Prosperity →

In terms of prosperity governments of both the countries worked on ~~at~~ reducing digital divide and access of universal internet. to the last mile of the country and its population

## ⇒ Economy

As prime ministers of two countries agreed on establishing strong partnership and adopted plan of actions which encourages Italian companies to invest in India and contributing in green and clean energy.

Bilateral cooperation of Italy and India will bring more and effective solutions not for their own countries but they also helped the world in comeout from this challenging period of covid 19 pandemic
