Ques) In the wake of new models of terrorism, international cooperation can be a possible solution to handle them effectively explain.

Ans) Terrorism has become dynamic with proliferation of AI, advanced weapons and emerging requirements.

Since recent decades we can see new forms of terrorism surpassing the capacities of controlling and regulating authorities. Some new models are

- ↳ Naval Terrorism
- ↳ Cyber Terrorism
- ↳ Use of Unmanned Aerial Vehicles (UAV) and drones in terrorism
- ↳ as a competitive industry

Terrorism which hampers the social fabric and, instills terror among people and damages physical existence of property and individual now finding new routes to materialism which often beyond states' capabilities.

The Comprehensive Convention for International Terrorism proposed by

India provides a regulatory framework for nations to collaboratively handle terrorism. It given terrorism a universal definition, makes nations to legislate accordingly and get rid of terrorist organisations.

But it is not supported by ~~the~~ OIC, Latin America, USA. due to reasons such as not considering National Liberation Movement and right to self determination as not within the definition of terrorism.

Way forward

- An international treaty needs to be formulated so that extradition of terrorist becomes possible
- ~~for the~~ Besides this India can sign bilateral counter terrorism agreements
- International forums such as Quad, G-20 can be utilised for raising voice against terrorism
- Technology and information sharing among the nations to build capacity against emerging forms should be mandated
