Q. For better quality of life, schemes designed for the tribal people need to be implemented in letter and spirit across the country. Explain.

Government of India introduced various schemes for Tribal people to improve their livelihood, education, shelter, cultivation etc.

At the same time it is also necessary to ensure that the welfare schemes benefits Tribals all over India properly.

Method to implement:

Behavioral change: Many tribals still don't send their girl children to school. Many of them prefer open defecation instead of toilets. These habits should be changed by creating awareness among them. Increasing employment to tribal girls etc will automatically allow them to send girl children to higher education.

* Increasing irresponsibility: Officers in-charge of implementing these schemes to tribals are often irresponsible which leads the tribals unaware of any such schemes. Government must ensure penetration of schemes to all tribals.

* Many tribal works such as pottery, handicrafts etc are facing heavy loss. Government ~~see~~ can recruit them ^{with specific skills} to demanded jobs.

* Increasing digitilization, Tribals are reluctant to approach government offices for their needs. Tribal education, Tribal offices should be tribal handy for them to access.
